

accounting and reporting requirements for video dialtone; and (2) Responsible Accounting Officer Letter 25 ("RAO Letter 25"), which sets forth specific guidelines for accounting classifications, subsidiary records, and amendments to cost allocation manuals for video dialtone. Finally, consistent with subsection 302(b)(3) of the 1996 Act, we do not require currently approved video dialtone systems to cease operations.

3. In addition, in order to conform our rules to new section 651(c) of the Communications Act, we modify our rules to the extent they relate to any requirement that a common carrier obtain a certificate under Section 214 to establish or operate a video programming delivery system. Pursuant to subsection 651(c), we will no longer require that a common carrier obtain Section 214 authorization to establish or operate a video programming delivery system, even a video programming delivery system provided on a common carrier basis pursuant to Title II of the Communications Act.
