5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Request for Comments

The Coast Guard encourages interested persons to participate in this rulemaking by submitting written data, views, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD01-95-169), the specific section of the proposal to which each comment applies, and give reasons for each comment. The Coast Guard requests that all comments and attachments be submitted in an 8½" x 11" unbound format suitable for copying and electronic filing. If that is not practical, a second copy of any bound material is requested. Persons requesting acknowledgment of receipt of comments should enclose a stamped, self-addressed postcard or envelope.

The Coast Guard will consider all comments received during the comment period. It may change this proposal in view of the comments. The Coast Guard plans no public hearing. Persons may request a public hearing by writing to Commander (b), First Coast Guard District at the address under "ADDRESSES." The request should include reasons why a hearing would be beneficial. If it is determined that the opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the Federal Register.

Discussion of Proposed Amendments

The annual Provincetown Swim for Life benefit is a local, traditional event which has been held for several years in Provincetown Harbor, Provincetown, MA. In the past, the Coast Guard has promulgated individual regulations for each year's running of the race. Given the recurring nature of the event, the Coast Guard desires to establish a permanent regulation. The proposed regulation would establish a regulated area in Provincetown Harbor of Cape

Cod Bay and would provide specific guidance to control vessel movement during the event. This proposal restricts vessels from approaching within 200 feet of participating benefit swimmers.

The event will consist of approximately 150 swimmers traveling 1.4 miles from Long Point Lighthouse to a point 200 yards east of the Coast Guard pier. There will be approximately 25-30 support boats on scene to augment a Coast Guard patrol to alert boating traffic of the presence of the swimmers. In emergency situations, provisions may be made to establish safe escort by a Coast Guard or designated Coast Guard vessel for vessels requiring transit within 200 feet of participating swimmers.

The proposed section will be effective annually on the first Saturday following the Labor Day holiday weekend, at a specific time published in a Coast Guard Notice to Mariners. A rain date may be established and published in a Coast Guard Notice to Mariners.

Regulatory Evaluation

This proposal is not a significant regulatory action under section 3(f) of Executive Order 12866, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact to be so minimal that a full Regulatory Evaluation, under paragraph 10e of the regulatory policies and procedures of DOT, is unnecessary. This conclusion is based on the limited duration of the event, the extensive advisories that will be made to the affected maritime community, and the minimal restrictions which the regulation places on vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider the economic impact on small entities of a rule for which a general notice of proposed rulemaking is required. "Small entities" may include (1) small businesses and not-for-profit organizations that are independently owned and operated and are not dominant in their fields and (2) governmental jurisdictions with populations of less than 50,000.

For the reasons discussed in the Regulatory Evaluation, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposal will not have a significant

economic impact on a substantial number of small entities.

Collection of Information

This proposal contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this proposal under the principles and criteria contained in Executive Order 12612 and has determined that this proposal does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard has considered the environmental impacts of this proposal and concluded that, under paragraph 2.B.2.e.34(h) of COMDTINST 16475.1B, (as revised by 59 FR 38654, July 29, 1994) this proposal is a regulation issued in conjunction with an annually issued regatta or marine parade permit and is categorically excluded from further environmental documentation.

Discussion of Proposed Amendments

The annual Swim the Bay competition is a local, traditional event that has been held for many years in the East Passage of Narragansett Bay, Jamestown/Newport, RI. In the past, the Coast Guard has promulgated individual regulations for each year's running of the race. Given the recurring nature of the event, the Coast Guard desires to establish a permanent regulation. The proposed regulation would establish a regulated area in the East Passage of Narragansett Bay and would provide specific guidance to control vessel movement during the race. This proposal restricts vessels from approaching within 200 feet of participating competition swimmers.

The event will consist of two heats of approximately 100 swimmers racing 1.7 miles from Coasters Harbor Island beach, Newport, RI, to Potters Cove, Jamestown, RI. There will be approximately 25-30 support boats on scene to augment a Coast Guard patrol to alert boating traffic of the presence of
