BILLING CODE 6718-05-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 0

[DA 96-290]

General Information; Modification of Commission's Rules

AGENCY: Federal Communications

Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission is modifying a section of

the Commission's Rules that implements the Freedom of Information Act (FOIA) fee schedule. This modification pertains to the charge for recovery of the full, allowable direct costs of searching for and reviewing records requested under the FOIA and $\S\,0.460(e)$ or $\S\,0.461$ of the Commission's rules, unless such fees are restricted or waived in accordance with $\S\,0.470$. The fees are being revised to correspond to modifications in the rate of pay approved by Congress.

EFFECTIVE DATE: May 2, 1996.

FOR FURTHER INFORMATION CONTACT: Judy Boley, Freedom of Information Act Officer, Records Management Branch, Room 234, Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554, (202) 418–0210.

SUPPLEMENTARY INFORMATION: The FCC is modifying Section 0.467(a) of the Commission's Rules. This rule pertains to the charges for searching and reviewing records requested under the Freedom of Information Act (FOIA). The FOIA requires federal agencies to establish a schedule of fees for the processing of requests for agency records in accordance with fee guidance issued by the Office of Management and Budget (OMB). In 1987, OMB issued its Uniform Freedom of Information Act Fee Schedule and Guidelines. However, because the FOIA requires that each agency's fees be based upon its direct costs of providing FOIA services, OMB did not provide a unitary, governmentwide schedule of fees. The Commission based its FOIA fee schedule on the grade level of the employee who processes the request. Thus, the fee schedule was computed at a Step 5 of each grade level based on the General Schedule effected January 1996. The instant revisions correspond to modifications in the rate of pay recently approved by Congress.

Regulatory Procedures

This rule has been reviewed under Executive Order No. 12866 and has been determined not to be a "significant rule" since it will not have an annual effect on the economy of \$100 million or more.

In addition, it has been determined that this rule will not have a significant economic impact on a substantial number of small entities.

Freedom of information.

Federal Communications Commission. Andrew S. Fishel, *Managing Director.*

Amendatory Text

Part 0 of chapter I of title 47 of the Code of Federal Regulations is amended as follows:

PART 0—COMMISSION ORGANIZATION

1. The authority citation for Part 0 continues to read as follows:

Authority: Sec. 5, 48 Stat. 1068, as amended; 47 U.S.C. 155, 225, unless otherwise noted.

2. Section 0.467 is amended by revising the table in paragraph (a)(1) and its note, and paragraph (a)(2) to read as follows:

§ 0.467 Search and review fees. (a)(1) * * *

Grade	Hourly fee
GS-1	8.56
GS-2	9.31
GS-3	10.50
GS-4	11.78
GS-5	13.19
GS-6	14.70
GS-7	16.33
GS-8	18.08
GS-9	19.98
GS-10	22.00
GS-11	24.17
GS-12	28.97
GS-13	34.45
GS-14	40.72
GS-15	47.89

Note: The fees in this table will be modified periodically to correspond with modifications in the rate of pay approved by Congress.

(2) The fees in paragraph (a)(1) of this section were computed at Step 5 of each grade level based on the General Schedule effective January 1996 and include 20 percent for personnel benefits.

[ET Docket No. 94-124; RM-8308; FCC 95-499]

Operation above 40 GHz

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: By this *First Report and Order* ("1st R&O"), the Commission adopts revisions to the frequency allocation table and establishes standards to permit the manufacture, importation and operation of vehicle-mounted radar system transmitters in the 46.7–46.9 GHz and 76–77 GHz bands and of general use, unlicensed transmitters in the 59–64 GHz band. Part of this action responds to petitions for rule making filed by General Motors Research Corporation (GM) and VORAD Safety Systems, Inc. (VORAD).

EFFECTIVE DATE: May 2, 1996. The suspension of § 15.255 is effective until a final Commission decision is reached concerning appropriate spectrum etiquette techniques. FCC will publish

notice of the final decision in the Federal Register.

FOR FURTHER INFORMATION CONTACT: John Reed, Office of Engineering and Technology, (202) 418–2455, Richard Engelman, Office of Engineering and Technology, (202) 418–2445, or Michael Marcus, Office of Engineering and Technology, (202) 418–2470, or send an electronic mail message via the Internet to mmwaves@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's 1st R&O, ET Docket 94-124, FCC 95-499, adopted December 15, 1995, and released December 15, 1995. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, Inc., (202) 857– 3800, 1919 M Street, N.W., Room 246 or 2100 M Street, N.W., Suite 140, Washington, D.C. 20037.

Summary of 1st R&O

1. On October 20, 1994, the Commission adopted a Notice of Proposed Rule Making, 59 FR 61304, November 30, 1994, in this proceeding. The Commission proposed to open for commercial development and use a portion of the millimeter wave frequency bands above 40 GHz. In particular, the Commission proposed to make available a total of 16 GHz of spectrum in the frequency range between 47.2 and 153 GHz on a shared basis with existing and future government users. The Commission also proposed to make available 2 GHz of spectrum in the 40.5-42.5 GHz band for non-government users.

2. In cooperation with the Department of Commerce's National Telecommunications and Information Administration (NTIA), the Commission proposed twelve frequency bands in the region of the spectrum from 47 GHz to 153 GHz for potential use by new millimeter wave technologies. The frequency bands are: 47.2-48.2 GHz, 59.0-64.0 GHz, 71.0-72.0 GHz, 76.0-77.0 GHz, 84.0-85.0 GHz, 94.7-95.7 GHz, 103.0-104.0 GHz, 116.0-117.0 GHz, 122.0-123.0 GHz, 126.0-127.0 GHz, 139.0-140.0 GHz, and 152.0-153.0 GHz. The Commission also proposed to designate three millimeter wave bands, as well as part of a fourth band, for use by vehicular radar systems. These bands are: 47.2-47.4 GHz, 76.0-77.0 GHz, 94-7-95.7 GHz and 139.0-140.0 GHz.
