In accordance with sections 353.22(a) and 355.22(a) of the regulations, an interested party as defined by section 353.2(k) may request in writing that the Secretary conduct an administrative

review. The Department has changed its requirements for requesting reviews for countervailing duty orders. Pursuant to 19 CFR 355.22(a) of the Department's Interim Regulations (60 FR 25137 (May

11, 1995)), an interested party must specify the individual producers or exporters covered by the order for which they are requesting a review. Therefore, for both antidumping and

countervailing duty reviews, the interested party must specify for which individual producers or exporters covered by an antidumping finding or an antidumping or countervailing duty order it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters. If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin, and each country of origin is subject to a separate order, then the interested party must state specifically, on an order-by-order basis, which exporter(s) the request is intended to cover.

Seven copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, Washington, D.C. 20230. The Department also asks parties to send a copy of their requests to the Office of Antidumping Compliance, Attention: Pamela Woods, in room 3065 of the Main Commerce Building. Further, in accordance with section 353.31(g) or 355.31(g) of the regulations, a copy of each request must be sent to every party on the Department's service list.

The Department will publish in the Federal Register a notice of "Initiation of Antidumping (Countervailing) Duty Administrative Review," for requests received by April 31, 1996. If the Department does not receive, by April 31, 1996, a request for review of entries covered by an order or finding listed in this notice and for the period identified above, the Department will instruct the Customs Service to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute, but is published as a service to the international trading community.

Dated: March 28, 1996.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

### **Initiation of Antidumping Duty Investigations: Certain Brake Drums and Certain Brake Rotors From the People's Republic of China**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 3, 1996.

**FOR FURTHER INFORMATION CONTACT:** Katherine Johnson at (202) 482-4929 or James Terpstra at (202) 482-3965, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230.

Initiation of Investigations

#### *The Applicable Statute*

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act ("URAA").

#### *The Petition*

On March 7, 1996, the Department of Commerce ("the Department") received a petition filed in proper form by The Coalition for the Preservation of American Brake Drum and Rotor Aftermarket Manufacturers ("petitioner"), whose members consist of Brake Parts, Inc., Iroquois Tool Systems, Inc., and Wagner Brake Corporation, a Division of Wagner Electric Corp. (domestic producers of both brake drums and rotors) and Kinetic Parts Manufacturing, Inc. (domestic producer of brake rotors).

In accordance with section 732(b) of the Act, the petitioner alleges that imports of both brake drums and brake rotors from the People's Republic of China (PRC) are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that such imports are materially injuring, or threatening material injury to, respective U.S. industries.

The petitioner is a coalition, the majority of whose members are producers of both domestic like products as defined in the petition. Therefore, it has standing to file the petition because it is an interested party, as defined under section 771(9)(E) of the Act, with respect to both products.

#### *Determination of Industry Support for the Petition*

Section 732(c)(4)(A) of the Act requires the Department to determine,

prior to the initiation of an investigation, that a minimum percentage of the domestic industry supports an antidumping petition. A petition meets these minimum requirements if the domestic producers or workers who support the petition account for (1) at least 25 percent of the total production of the domestic like product; and (2) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition.

A review of the production data provided in the petition and other information readily available to the Department indicates that the petitioner accounts for more than 50 percent of the total production of each of the domestic like products. The Department received no expressions of opposition to the petition from any domestic producer or workers. Accordingly, the Department determines that the petition is supported by the respective domestic industries.

#### *Scope of the Investigations*

The products covered by these two investigations are 1) certain brake drums and 2) certain brake rotors.

#### *Brake Drums*

Brake drums are made of gray cast iron, whether finished, semifinished, or unfinished, ranging in diameter from 8 to 16 inches (20.32 to 40.64 centimeters) and in weight from 8 to 45 pounds (3.63 to 20.41 kilograms). The size parameters (weight and dimension) of the brake drums limit their use to the following types of motor vehicles: automobiles, all-terrain vehicles, vans and recreational vehicles under "one ton and a half," and light trucks designated as "one ton and a half."

Finished brake drums are those that are ready for sale and installation without any further operations. Semi-finished drums are those on which the surface is not entirely smooth, and has undergone some drilling. Unfinished drums are those which have undergone some grinding or turning.

These brake drums are for motor vehicles, and do not contain in the casting a logo of an original equipment manufacturer (OEM) which produces vehicles sold in the United States (e.g., General Motors, Ford, Chrysler, Honda, Toyota, Volvo). Brake drums covered in this investigation are not certified by OEM producers of vehicles sold in the
