Customized Market Analysis (CMA) Program Description

The Customized Market Analysis (CMA) is a market research report ordered by a U.S. client on a specific product, or product-line that can be researched as a single product, in a specific country. CMAs are normally ordered through U.S. Department of Commerce District Offices but orders may also be taken at overseas Posts where the "Commercial Service" has a presence, and, on rare occasions, the CMA office at Headquarters in Washington D.C.

CMA reports consist of nine standard parts for a specific product. The nine parts provide information including sales potential, competitor information, sales and distribution channels, pricing of comparable/competitive products, profile of potential buyers, venues for market exposure, information on quotas, duties, regulations, potential buyers and/or distributors, and licensing or joint venture interest by local business entities. CMA reports can be further customized or expanded for an

additional cost which is negotiated prior to finalizing the request.
