#### 15. Calpine Corporation

[Docket No. QF96-54-000]

On March 27, 1996, Calpine Corporation of 50 W. San Fernando Street, San Jose, California 95113, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to Section 292.207(b) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

According to the applicant, the topping-cycle cogeneration facility, which will be located in Pasadena, Texas, will consist of a gas turbine generator and a steam turbine generator, and a heat recovery steam generator. The primary energy source will be natural gas. The thermal output of the facility will be sold to Phillips Petroleum Company for use at the Houston Chemical Complex for various process uses. The maximum net electric power production capacity of the facility is 223 MW. Electric power produced by the facility is to be sold to Houston Lighting & Power Company. Installation of the facility is scheduled to commence in November of 1996.

*Comment date:* Thirty days after the date of publication of this notice in the Federal Register, in accordance with Standard Paragraph E at the end of this notice.

#### Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

### ENVIRONMENTAL PROTECTION AGENCY

[FRL-5456-5]

#### Agency Information Collection Activities: Proposed Collection; Comment Request; Information Collection Request for the National Pollutant Discharge Elimination System (NPDES)/Compliance Assessment Information

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): National Pollutant Discharge Elimination System (NPDES)/Compliance Assessment Information, OMB Control Number 2040-0110; expiration date, September 30, 1996. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before June 10, 1996.

**ADDRESSES:** Interested persons may obtain a copy of the ICR without charge from U.S.E.P.A., Office of Wastewater Management, Permits Division (4203), 401 M. St., S.W., Washington, DC 20460.

**FOR FURTHER INFORMATION CONTACT:** Shirley Dorrington, (202) 260-6961; Facsimile Number, (202) 260-9544; Email Number, dorrington.shirley@epamail.epa.gov

#### SUPPLEMENTARY INFORMATION:

**Affected entities:** Entities potentially affected by this action are those which are issued NPDES discharge permits for the discharge of domestic wastewater, industrial wastewater, and storm water, and for the use and disposal of sewage sludge.

**Title:** Agency information collection activities: Proposed collection; comment request; Information Collection Request for the National Pollutant Discharge Elimination System (NPDES)/Compliance Assessment Information; OMB Control Number 2040-0110; expiration date, September 31, 1996.

**Abstract:** Pollutant discharge limits in a NPDES permit are designed to be protective of the environment and the public. Permitting authorities must assess whether the permittee is complying with these discharge limits on a consistent basis. Compliance is assessed by reviewing records, compliance schedule reports, and noncompliance reports for a bypass, upset, or maximum daily violation. Permittees must maintain such records, meet compliance schedules, and submit reported violations as mandated in 40 CFR Parts 122 and 501. The information that is collected can lead the permitting authority to follow through with informal discussions with the permittee (telephone and/or letters), permit modification, or enforcement action.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** The information collection for compliance assessment and certification activities will involve an estimated 23,673 respondents and 205,896 record keepers. The annual costs to respondents and record keepers is estimated to be \$19,883,261. The total annual cost to both respondents, record keepers, and government (excluding Federal government) is estimated to be \$20,556,817. There will be approximately 27,859 annual responses submitted by the 23,673 respondents resulting in 1.177 responses per year. The time required for a response ranges from 15 minutes to 41 hours, with an average response time of 2.36 hours per response. The average annual record keeping burden per record keeper is estimated to be 3.17 hours. The compliance assessment and certification activities will entail an annual burden of 652,873 hours of record keeping and 65,712 hours of reporting for a total of 718,585 burden hours. These activities will also entail 23,395 burden hours for State governments as users of data.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: March 29, 1996.
