NUCLEAR REGULATORY COMMISSION

[Docket Nos. 030-05373; 030-32163 License Nos. 29-09814-01; 29-09814-02 EA 96-085]

Eastern Testing & Inspection, Inc. Thorofare, New Jersey; Order Suspending Licenses Effective Immediately

I

Eastern Testing & Inspection, Inc., (Licensee or ETI) is the holder of Byproduct Nuclear Material Licenses No. 29-09814-01 and No. 29-09814-02 issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 30. License No. 29-09814-01 authorizes possession and use of iridium-192 and cobalt-60 sealed radiography sources for use in a compatible radiographic source exposure device. The license was last renewed on December 16, 1994 and is due to expire on December 31, 1999. License No. 29-09814-02 authorizes the use of portable gauges, was issued on May 23, 1991, and is due to expire on May 31, 1996.

II

The NRC Office of Investigations (OI) conducted an investigation of ETI and based on that investigation, it appears that with respect to License No. 29-09814-01:

(1) The ETI President, Mr. Himat Soni, deliberately caused the Licensee to create an inaccurate record in

violation of 10 CFR 30.9 and 30.10, by signing an ETI radiographer's card, dated June 16, 1995, which certifies that an employee meets the applicable requirements of the SNT-TCI-IA and is authorized to perform the duties of Radiographer Level I per ETI procedures, when the employee had received only a few hours of instruction and told Mr. Soni that the employee had not completed 40 hours of formal classroom training in radiation safety as specified by ETI Radiation Safety Procedures, Procedure No. RS-1, Rev. G, (March 14, 1994), incorporated by reference in Condition 17 of License No. 29-09814-01;

(2) The ETI Radiation Safety Officer (RSO), Mr. Joseph Badiali, deliberately caused the Licensee to create an inaccurate record of an employee's Radiation Safety Examination for Assistant Radiographer, dated June 20, 1995, in violation of 10 CFR 30.9 and 30.10, by providing the employee with answers to the examination;

(3) The ETI RSO deliberately caused the Licensee to create an inaccurate record of an employee's training, in violation of 10 CFR 30.9 and 30.10, by signing a document dated June 20, 1995, representing that he had given the employee an oral quiz as part of a practical examination, when the employee had not been given the oral quiz or a practical examination;

(4) ETI deliberately directed at least one unqualified and untrained employee, the employee referred to in subparagraphs (1)-(3) above, to perform radiography between June 15, 1995, and July 26, 1995, in violation of 10 CFR 34.31;

(5) ETI personnel did not complete utilization records on 97 occasions between January 1, 1994 and August 31, 1995, in violation of 10 CFR 34.27; and

(6) On September 29, 1995, the President of ETI threatened a former employee with physical harm, based on the belief that the former employee may have cooperated with an NRC investigation and/or inspection of ETI.

In addition, on May 24, 1995, July 11 and 13, 1995, and August 1, 2, and 23, 1995, the NRC conducted an inspection at the ETI facility in Thorofare, New Jersey, and at a temporary jobsite in Deepwater, New Jersey. During the inspection, violations of NRC requirements were identified related to the radiography license (No. 29-09814-01). The violations involved:

(1) The provision of a few hours of instruction, rather than 40 hours of formal classroom instruction to an employee, who performed work as a radiographer's assistant between June 15, 1995 and July 26, 1995, in violation
