BILLING CODE 4210-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Distribution of Fiscal Year 1996 Contract Support Funds

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of method for distribution and use of FY 1996 contract support funds (CSF).

SUMMARY: The purpose of this Announcement is to issue the Bureau of Indian Affairs (BIA) administrative instructions for the implementation of Public Law (Pub. L.) 93-638 as amended by Public Law 103-413, the Indian Self-Determination Act Amendments of 1994 (the Act). These administrative instructions are designed to provide BIA

personnel with assistance in carrying out their responsibilities. These instructions are not regulations establishing program requirements. In addition, these instructions are not intended to bind agency personnel. Instead, these instructions are intended to provide guidance to BIA personnel while allowing BIA personnel to apply judgement and prudence in individual circumstances.

DATES: The CSF Needs Reports for ongoing/existing and new and expanded contracts are due on July 15, 1996. All new and/or expanded contracts starting between October 1, 1995, and January 1, 1996, will be considered to have a January 1, 1996, start date. Current proposals for FY 1996 indirect cost rates must be pending before the Inspector General on or before July 1, 1996. The final distribution of CSF will be made on or about July 30, 1996.

ADDRESSES: Bureau of Indian Affairs, Division of Self-Determination Services, 1849 C Street, NW, MS-4627-MIB, Washington, DC 20240.

FOR FURTHER INFORMATION:

Please contact Jim Thomas (202) 208-3708.

Summary Statement

A total of \$95,829,000 is available for contract support requirements (excluding construction contracts) during FY 1996. Of this amount \$90,829,000 is available for contract support requirements associated with FY 1996 costs of ongoing self-determination and self-governance awards for programs under contract prior to FY 1996. The balance of \$5,000,000 is provided to continue the Indian Self-Determination (ISD) Fund to provide contract support for new and expanded contracts first entered into in FY 1996. Each BIA Area Office and the Office of Self-Governance (hereinafter office) has the responsibility for tribes located within their respective area to work with the tribes in identifying existing and new and expanded contracts and reporting this information to the Division of Self-Determination Services as specified in this announcement. CSF shall be added to awards made under Sec. 102 and Title III of the Indian Self-Determination and

Education Assistance Act, as amended. Awards made under the authority of Sec. 103 of this Act shall not receive CSF to meet indirect costs, as contract support provisions do not apply to Sec. 103 grants.

Basis for Payment of CSF

BIA will utilize tribal indirect cost rates to determine the amount of CSF to be paid to eligible contracting tribes and tribal organizations. In determining legitimate FY 1996 indirect cost requirements each area director should fund only those contracting or compacting tribal organizations that have approved FY 1995 or 1996 indirect cost rates or current indirect cost proposals to be negotiated by the Inspector General. Current proposals mean proposals scheduled for active consideration which are submitted to the Inspector General prior to July 1, 1996.

Ongoing/Existing Contracts

Each area office will submit CSF need reports to the Central Office for ongoing contracts by July 15, 1996. A final distribution of contract support will be made on or about July 31, 1996. CSF will be provided to each area from the remaining available \$90,829,000 based on these reports. If these area reports indicate that \$90,829,000 will not be sufficient to cover the entire need, this amount will be distributed so that all areas receive the same percentage of their reported need. Also, should the amount provided for these existing contracts prove insufficient, a tribe or group of tribes may wish to reprogram funds to make up deficiencies necessary to recover full indirect costs. This tribal reprogramming authority is limited to funds for programs located in the Tribal Priority Allocation (TPA) portion of the tribal budget.

Congressional language does not provide authority for the Bureau to reprogram funds from other Bureau programs to meet any CSF shortfalls.

For programs other than TPA, tribes are not constrained from recovering full indirect costs from within the overall program and contract support funds awarded for each program.

Congressional language sets a ceiling on the amount of CSF available in FY 1996.

Each office will be suballotted 75 percent of the total amount reported as contract support needs for FY 1995, as soon as possible. Accordingly, each office is to award 75 percent of required contract support to each award meeting the criteria established below.

Contractors with approved FY 1995 indirect cost rates, but without current proposals pending before the Inspector

General, are eligible for 50 percent of the required CSF for such awards.

An ongoing/existing contract is defined as a BIA program operated by the tribe or tribal organization on an ongoing basis which has been entered into prior to the current fiscal year. An increase or decrease in the level of funding from year to year for such contracts would not affect the designation of such contracts as being ongoing. Rather, an assumption of additional BIA program responsibilities would be required to trigger a change in designation as explained below.

New and Expanded Contracts

Each area office will submit CSF need reports to the Central Office for new and expanded contracts periodically throughout the year as new contracts are awarded or existing contracts are expanded. Funds will be provided to the areas as these reports are received and will be taken from the \$5,000,000. These funds will be distributed on a first-come-first-serve basis at 100% of need using the area reports. In the event the \$5,000,000 is depleted, new or expanded contracts awarded after this fund has been exhausted will not be provided any CSF during this fiscal year. Requests received after this fund has been exhausted will be considered first for funding in the following year, from funds appropriated for this purpose. It should be noted that there were a number of FY 1995 new and expanded contracts which were not funded during FY 1995, and, in line with the process outlined herein will be given priority for funding over FY 1996 new and expanded contracts.

Priority of Funding for New and Expanded Contracts

Contract support will be awarded from the ISD fund to all new and expanded contracts/compacts on a priority basis, based on the start date of the award, the application date, and then the approval date, on a first-come-first-served basis. An Indian Self-Determination Fund "applicant roster" shall be maintained, which shall list, in order of priority, the name of the tribe or tribal organization, the name of the program, the start date, the application date, the approval date, the amount of program funds, the program cost code(s), the amount of contract support funds required, and the date of the approved Indirect Cost Rate Agreement, or the date the indirect cost proposal was received by the Inspector General.

Start date means the date of commencement of operation of the new or expanded portion of the contract or compact by the tribe or tribal

organization. However, the Self-Determination Act provides that contracts will be on a calendar year unless otherwise provided by the tribe, any start date on or prior to January 1 of each year shall be considered a January 1 start date.

Application date shall be the date of the request by the tribe which includes: (1) a tribal resolution requesting a contract or compact; (2) a summary of the program or portion thereof to be operated by the Tribe or Tribal organization; and (3) a summary identifying the source and amount of program or services funds to be contracted or compacted and contract support requirements. In the event that two tribes or tribal organizations have the same start date, application date, and approval date, then the next date for determination of priority shall be the date the fully complete application was received by the BIA. If all of the above are equal, and if funds remaining in the ISD fund are not adequate to fill the entire amount of each awards contract support requirement, then each will be awarded a proportionate share of its requirement and shall remain on the Indian Self-Determination Fund Roster in appropriate order of priority for future distributions.

New contract is defined as the initial transfer of a program, during the current fiscal year, previously operated by the BIA to the tribe or tribal organization.

An expanded contract is defined as a contract which has become enlarged, during the current fiscal year through the assumption of additional programs previously operated by the BIA.

Criteria for Determining CSF Need for Ongoing/Existing Contracts

CSF for ongoing and existing contracts will be determined using the following criteria:

1. All TPA contracted programs in FY 1995 and continued in FY 1996, including contracted programs moved to TPA in FY 1996, such as New Tribes, HIP, and Road Maintenance.

2. Direct program funding increases due to inflation adjustments and general budget increases.

3. TPA programs started or expanded in FY 1996 that are a result of a change in priorities from other already contracted programs.

4. CFS differentials associated with tribally operated schools that receive indirect costs through the application of the administrative cost grant formula. These differentials are to be calculated in accordance with the criteria prescribed in the Choctaw decision dated September 18, 1992, issued by the Contracting Officer, Eastern Area Office.

Copies of this decision can be obtained by calling the telephone number provided in this announcement. Tribes that received differential funding under this category in FY 1995 are eligible to receive funding from this account in FY 1996. Tribes that did not receive differential funding under this category in FY 1995 are eligible for funding from the ISD fund.

5. CSF will be distributed to the Office of Self-Governance for ongoing compacts, on the same basis as area offices. All additional CSF requirements will be met from the ISD fund in accordance with the criteria established below.

6. Funds available for Indian Child Welfare Act (ICWA) programs or reprogrammed from ICWA to other programs will be considered ongoing for the purposes of payment of contract support costs.

7. The use of CSF to pay prior year shortfalls is not authorized.

8. Programs funded from sources other than those listed above that were contracted in FY 1995 and are to be contracted in FY 1996 are considered as ongoing.

Criteria for Determining CSF Need for New and Expanded Contracts

CSF for new and expanded contracts will be determined using the following criteria:

1. All contracts initially entered into in FY 1995 that transfer the operation of a program that was operated by the BIA in the previous fiscal year to the tribe, and does not fall under the definitions described in numbers 3 and 6 above.

2. All expansions of existing contracts that call for the tribe to assume more or additional programs previously operated by the BIA.

3. CSF differentials associated with a grant school operated by the tribe that did not receive differential funding for the school in FY 1995.

4. New and expanded program assumptions under Self-Governance compacts.

Dated: April 8, 1996.

Ada E. Deer,

Assistant Secretary, Indian Affairs.

BILLING CODE 4310-02-M

Bureau of Land Management

[OR-128-06-6332-00; GP6-0112]

Oregon: Supplementary Rules for Management of the New River Area of Critical Environmental Concern (ACEC) Management Plan

AGENCY: Coos Bay District Office, Bureau of Land Management, Interior.

ACTION: Coos Bay District is implementing restrictions, closures and prohibited acts as described in of the New River ACEC Management Plan which was approved on April 4, 1995.

SUMMARY: This notice supplements the established order, Federal Register, volume 48, No. 127, Thursday, June 30, 1983, which generally identifies New River ACEC. Pursuant to the authority of Federal Land Policy and Management Act of October 21, 1976 (Section 202(C)(3)) and 43 CFR 1601.6-7, only BLM administered public land within the following areas are designated as the New River ACEC. Supplementary rules are required to carry out the intent of the Management Plan, which incorporated public review and consideration of public comment prior to being approved. The Authority for implementing supplementary rules is 43 CFR 8365.1-6. These supplementary rules are the minimum necessary to implement the plan as published, and apply only to those BLM administered lands designated as the New River ACEC.

The New River ACEC is located five (5) miles south of Bandon, Oregon, on the southern Oregon Coast fronting the Pacific Ocean and east of New River, a partial estuarine stream. The ACEC encompasses 1168 acres of BLM administered public land. Management intent under the New River ACEC Management Plan and the Resource Management Plan (RMP) is protection of important plants, wildlife, natural and cultural values while providing for other compatible land uses.

The ACEC designation provides protection to the Federally endangered western lily and Federal Candidate species silver phacelia, as well as other plant species whose habitat is strictly limited to coastal sand dunes. The area also provides habitat for Federally Threatened avian species the Western Snowy Plover, Peregrine Falcon, Bald Eagle, Alutian Canada Goose as well as the Federally Endangered brown pelican. A unique isolated beach-marsh-estuarine environment is found throughout the area. The sand dunes rest on a layer of peat which is not found in other dunes along the Oregon coast.

The New River ACEC Management Plan identifies restrictions, closures and prohibited acts necessary to manage recreational use and to protect on site resource values. These restrictions, closures and prohibited acts cover all current BLM administered New River ACEC lands and any future ACEC acquisitions.

Prohibited Acts

1. OHV/Motor Vehicle Use

a. Operating any motorized vehicle within the ACEC except on River Road and the road/parking area at Storm Ranch.

b. Operating any motorized vehicle on River Road beyond the Storm Ranch administrative site outside of the anadromous inland salmonid fishing season as defined by Oregon Department of Fish and Wildlife regulations.

2. Seasonal Beach Closure

Entering by foot, horseback or any motorized or mechanical conveyance (include bicycles) the BLM administered beach immediately west of the posted areas of the foredune at Floras Lake encompassing public lands in Sections 7 and 8 Township 31 South Range 15 West, from March 15 through September 15.

3. Camping

Overnight camping within the boundary of the ACEC except for special purposes at the Storm Ranch by special permit signed by the Authorized Officer.

Definition—Authorized Officer—Area Manager or his/her designated representative.

For purposes of this notice, camping is defined as the erection and use of tents or shelters of natural or synthetic material, preparing a sleeping bag or
