

Information provided by Dr. Bailey indicates this human remain was one of many distributed during the mourning period for Queen Emma Kaleleonalani Rooke. Following the death of a greatly respected leader, Native Hawaiian mourners would contribute small scalplocks to be worn throughout the community during a mourning period. After the mourning period, the leader would be interred with these scalplocks of mourners. Consultation evidence presented by *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* indicates this human remain was "intended to accompany Queen Emma Kaleleonalani Rooke to heaven."

Based on the above mentioned information, officials of the Santa Cruz City Museum of Natural History have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the one object listed above is reasonably believed to be an item exclusively made for burial purposes and therefore considered an associated funerary object. Officials of the Santa Cruz City Museum of Natural History have also determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between this associated funerary object and *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* and the *Maui/Lanai'i* Islands Burial Council.

This notice has been sent to officials of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*, *Maui/Lanai'i* Islands Burial Council, and the Office of Hawaiian Affairs. Representatives of any other Indian tribe or Native Hawaiian organization that believes itself to be culturally affiliated with this associated funerary objects should contact Ms. Sally Legakis, Registrar, Santa Cruz City Museum of Natural History, 1305 E. Cliff drive, Santa Cruz, CA 95062, telephone (408) 429-3760, before May 13, 1996. Repatriation of the associated funerary object may begin after that date if no additional claimants come forward.

Dated: April 5, 1996.
