

# **Notice Pursuant to the National Cooperative Research and Production Act of 1993; Joint Industry Program**

Notice is hereby given that, on March 15, 1996, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Southwest Research Institute (SwRI) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership and restating the nature and objectives of the venture. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the new participant who has been added to the venture known as the Joint Industry Program is: Chevron Research and Technology Company, a division of Chevron U.S.A., Inc., Richmond, CA. SwRI wishes to restate the planned activities of JIP because the originally published notice was abbreviated and did not sufficiently state these activities. The planned research activities are to develop a cost effective nondestructive evaluation technique whose capabilities include the nonintrusive inspection of the entire cross section of pipe and to detect both OD and ID defects without the removal of insulating material at a high inspection speed with a short set up time and to develop a field deployable production model magnetostrictive sensor (MsS) for inspecting and detecting corrosion in insulated piping systems found in the oil, gas, chemical and petrochemical industries by evaluating the operating range of the MsS technique taking into consideration pipe diameter, grade, configuration, wall thickness, temperature and operating pressure of the line and by developing instrument specifications suitable for in-plant testing.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and SwRI intends to file additional written notification disclosing all changes in membership.

On October 25, 1995, Southwest Research Institute, (Joint Industry Program, JIP) filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the Federal

Register pursuant to Section 6(b) of the Act on February 23, 1996 (61 FR 7020).
