

data collected from IUs includes the mass, frequency, and content of their discharges, their schedules for installing pretreatment equipment, and actual or anticipated discharges of wastes that violate pretreatment standards, have the potential to cause problems at the POTW, or are considered hazardous under the Resource Conservation and Recovery Act (RCRA). States and POTWs applying for approval of pretreatment programs submit data concerning their legal, procedural, and administrative bases for establishing such programs. This information may include surveys of IUs, local limits for pollutant concentration, and schedules for completion of major project requirements. IUs and POTWs submit written reports. These data may then be entered into the NPDES databases by the approved State or EPA.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

- (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The information collection will involve an estimated 33,526 respondents at an annual cost of \$91,332,981 to those respondents. The total annual cost to both respondents and government (excluding Federal government) is estimated at \$95,859,696. The annual number of responses will be 203,518 or 6.07 responses per respondent. The time required for a response ranges from 15 minutes to 400 hours, with an average response time of 6.600 hours. An estimated 33,526 respondents are required to keep records at an average

annual burden of 6.853 hours per record keeper. The pretreatment program will entail 229,741 hours of record keeping and 1,343,215 hours of reporting for a total of 1,572,957 burden hours. The pretreatment program will also entail 218,168 burden hours for municipal and State governments as users of the data.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 5, 1996.

Michael B. Cook,
Director, Office of Wastewater Management.

Technical Workshop on Monte Carlo Analysis in Exposure Assessment

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of meeting.

SUMMARY: Responding to broad Agency interest in Monte Carlo analysis, the EPA's Risk Assessment Forum is organizing a workshop on the use of this methodology in exposure assessments for human health risk assessment. A panel consisting of experts from industry and academia as well as practitioners from state and federal agencies will discuss general principles related to this application of Monte Carlo analysis. The workshop will be open to members of the public as observers. The plans for this workshop will be finalized only after the EPA's FY96 funding situation is clarified either through another continuing resolution or receipt of an appropriation.

DATES: The meeting will begin on Tuesday, May 14, 1996, at 8:00 a.m. and end on Thursday, May 16, at 1:00 p.m.

ADDRESSES: The meeting will be held at the EPA Region II Headquarters offices, 290 Broadway, New York, NY 10007.

Eastern Research Group, Inc., an EPA contractor, is providing logistical support for the workshop. To attend the workshop as an observer, contact Eastern Research Group, Inc., Tel: (617) 674-7374 by May 7, 1996. Space is limited so please register early.

FOR FURTHER INFORMATION CONTACT:

For further information concerning the Monte Carlo analysis workshop, please contact Marina Olsen, U.S. EPA Region II, 290 Broadway, New York, NY 10007, Telephone (212) 637-4313 or Steven Knott, U.S. EPA Office of Research and Development (8103), 401 M St. SW., Washington, D.C. 20460, Telephone (202) 260-2231.

SUPPLEMENTARY INFORMATION: Monte Carlo analysis can be applied to improve risk characterization through analysis of variability and uncertainty as recommended by the National Academy of Science and other advisory bodies. Increasingly, EPA program and regional risk assessors must make decisions concerning the use of probabilistic techniques in exposure assessment. However, guidance for agency risk assessors on the use of techniques such as Monte Carlo analysis has been lacking. The May workshop is being organized in response to this need.

Many of the technical issues that arise during the application or review of Monte Carlo analyses occur during the following steps in the exposure assessment process: Selecting input data/distributions for model parameters; evaluating variability and uncertainty; presenting results. These issues will be the focal points for the discussion during the May workshop. A panel consisting of experts from industry and academia as well as experts and practitioners from EPA, state agencies, and other federal agencies will lead discussions on the application of Monte Carlo techniques. Case studies will be used to illustrate the issues and to provide possible solutions for technical problems. The goal of the Workshop is to develop recommendations to assist assessors in the preparation and/or evaluation of Monte Carlo analyses. The workshop will also serve as the foundation for later Agency guidance on the use of Monte Carlo analysis in exposure assessment.

Dated: April 17, 1996.

Joseph K. Alexander,
Deputy Assistant Administrator for Science, Office of Research and Development.

National Drinking Water Advisory Council; Notice of Open Meetings

Under Section 10(a)(2) of Public Law 92-423, "The Federal Advisory Committee Act," notice is hereby given that a meeting of the National Drinking Water Advisory Council established under the Safe Drinking Water Act, as amended (42 U.S.C. § 300f *et seq.*), will be held on May 14, 1996, from 2:30 p.m. until 6:00 p.m. and on May 15, 1996, from 9:00 a.m. until 5:00 p.m. at the Concord Hilton Hotel, 1970 Diamond Boulevard, Concord, California 94520. The purpose of this meeting is two fold. The Council will receive a status on the development of the Proposed Groundwater Disinfection Rule and an update on the Redirection of the Drinking Water Program. The Agency will seek Council advice on consumer awareness as it relates to public drinking water supplies and conduct a general discussion on the implementation issues of a State Revolving Fund.

These meetings are open to the public. The Council encourages the hearing of outside statements and will allocate one hour on May 14, 1996, for this purpose. Oral statements will be limited to ten minutes, and it is preferred that only one person present the statement. Any outside parties interested in presenting an oral statement should petition the Council by telephone at (202) 260-2285 before May 9, 1996.

Any person who wishes to file a written statement can do so before or after a Council meeting. Written statements received prior to the meeting will be distributed to all members of the Council before any final discussion or vote is completed. Any statements received after the meeting will become part of the permanent meeting file and will be forwarded to the Council members for their information.

Members of the public that would like to attend the meeting, present an oral statement, or submit a written statement, should contact Ms. Charlene Shaw, Designated Federal Officer, National Drinking Water Advisory Council, U.S. EPA, Office of Ground Water and Drinking Water (4601), 401 M Street SW., Washington, DC 20460. The telephone number is Area Code (202) 260-2285.

Dated: April 16, 1996.

William R. Diamond,

Acting Director, Office of Ground Water and Drinking Water.

Public Meeting of the Urban Wet Weather Flows Advisory Committee's Sanitary Sewer Overflows Advisory Subcommittee

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) is convening a public meeting on May 9-10, 1996. This meeting is open to the public without need for advance registration. The Sanitary Sewer Overflows (SSO) Advisory Subcommittee will discuss: (1) identification of approaches for key issues; (2) the overall SSO strategy; (3) permit and compliance priorities; and, (4) the draft SSO framework.

DATES: The SSO meeting will be held on May 9-10, 1996. The May 9 meeting will begin promptly at 8:30 a.m. EST and end at approximately 5:00 p.m. On May 10, the meeting will begin at 8:30 a.m. and end at approximately 4:00 p.m.

ADDRESSES: The meeting will be held at the Holiday Inn Historic-District, 625 First Street, Alexandria, Virginia. The Holiday Inn's telephone number is (703) 548-6300.

FOR FURTHER INFORMATION CONTACT: Charles Vanderlyn, Office of Wastewater Management, at (202) 260-7277.

Dated: April 16, 1996.

Michael B. Cook,

Director, Office of Wastewater Management, Designated Federal Official.

Public Meetings of the Urban Wet Weather Flows Advisory Committee, the Storm Water Phase II Advisory Subcommittee, and the Sanitary Sewer Overflows Advisory Subcommittee

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) is convening separate public meetings beginning in June and extending through September 1996:

Urban Wet Weather Flows (UWWF) Advisory Committee

UWWF meetings will be held on August 1-2, 1996, at the Latham Hotel Georgetown, 3000 M Street, N.W., Washington, DC 20007, telephone (202)

726-5000; and September 26-27 at the Holiday Inn Hotel & Suites, 625 First Street, Alexandria, VA. 22314, telephone (703) 548-6300. The UWWF Advisory Committee will continue discussions of issues related to watersheds, storm water, and water quality standards in a wet weather context.

Storm Water Phase II Advisory Subcommittee

Storm Water Phase II Advisory Subcommittee meetings will be held on June 13-14, 1996, at the Holiday Inn Hotel & Suites, 625 First Street, Alexandria, VA. 22314, telephone (703) 548-6300; and August 5-6, 1996, at the Latham Hotel Georgetown, 3000 M Street, N.W., Washington, DC 20007, telephone (202) 726-5000. The Storm Water Phase II Advisory Subcommittee will continue discussions on issues concerning the framework for Phase II implementation.

Sanitary Sewer Overflows (SSO) Advisory Subcommittee

SSO Advisory Subcommittee meeting will be held on July 8-9, 1996, at the Crystal Gateway Marriott, 1700 Jefferson Davis Highway, Arlington, VA. The Crystal Gateway Marriott's telephone is (703) 920-3230. The SSO Subcommittee will continue discussions on the overall SSO strategy, permit and compliance priorities, and the draft SSO framework.

These meetings are open to the public without need for advance registration.

DATES:

June 13-14: Storm Water Phase II meeting. On June 13, the Storm Water Phase II meeting will begin promptly at 9:00 a.m. EST and end at approximately 5:30 p.m. On June 14, the meeting will begin at 9:00 a.m. and end at approximately 4:30 p.m.

July 8-9, 1996: SSO meeting. On July 8, the SSO meeting will begin approximately 8:30 a.m. EST and run until approximately 5:00 p.m. On July 9, the meeting will run from approximately 8:30 a.m. until 4:00 p.m.

August 1-2: UWWF meeting. On August 1, the UWWF meeting will begin at 10:00 a.m. and end at approximately 5:30 p.m. EST. On August 2, the UWWF meeting will begin at 8:00 a.m. and run until 4:30 p.m. EST.

August 5-6: Storm Water Phase II. On August 5, the Storm Water Phase II meeting will begin promptly at 9:00 a.m. and end at 5:30 p.m. EST. On August 6, the Storm Water Phase II meeting will begin promptly at 9:00 a.m. and end at 4:00 p.m.

September 26-27: UWWF meeting. On September 26, the UWWF meeting
