## **Federal Energy Regulatory Commission**

[Docket No. CP96-330-000]

### **Columbia Gas Transmission Corporation; Notice of Request Under Blanket Authorization**

April 22, 1996.

Take notice that on April 16, 1996, Columbia Gas Transmission Corporation (Columbia Gas), Post Office Box 1273, Charleston, West Virginia 25325-1273, filed in Docket No. CP96-330-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211) for authorization to construct and operate the facilities necessary to establish eight additional points of delivery to two existing customers, Waterville Oil and Gas Company and Mountaineer Gas Company, under the blanket certificate issued in Docket No. CP83-76-000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Columbia Gas asserts that the proposed delivery points will establish eight new points of delivery for residential consumption for firm transportation service under Part 284 of the Commission's regulations and existing authorized Rate Schedules and within certificated entitlements. Columbia Gas estimates that the design day quantity at Waterville Oil and Gas Company will be 1.5 Dth and the annual quantity will be 200 Dth, the design day quantity at Mountaineer Gas Company will be 10.5 Dth and the annual quantity will be 1,050 Dth.

Columbia Gas estimates that the cost to install the new taps will be approximately \$150 per tap which will be treated as an O&M Expense.

Columbia Gas states that the quantities to be provided through the new delivery points will be within Columbia Gas' authorized level of services. Further, Columbia Gas asserts that there will be no impact on its existing design day and annual obligations to the customers as a result of the construction and operation of the new delivery points.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's procedural rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

*Secretary.*

BILLING CODE 6717-01-M

[Docket No. CP96-321-000]

### **El Paso Natural Gas Company; Notice of Application**

April 22, 1996.

Take notice that on April 15, 1996, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas, 79978, filed an application at Docket No. CP96-321-000, pursuant to Section 7 (c) of the Natural Gas Act and Part 157 of the Commission's Regulations. El Paso seeks a certificate of convenience and necessity authorizing the construction and operation of additional compression facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

El Paso requests authorization to construct and operate additional compression facilities, with appurtenances, to be located at its existing Alamo Lake and Dutch Flat Compressor Stations on the Havasu Crossover Line and at its Wenden Compressor Station on the South System, all located in Mohave and La Paz Counties, Arizona (the Havasu Expansion Project).

El Paso says that the Havasu Expansion Project has been designed to

enable El Paso to transport additional quantities of gas of about 180,000 Mcf per day from its North System to its South System on the Havasu Crossover Line. The estimated cost of the Havasu Expansion Project is \$19,564,419. El Paso plans to place the proposed facilities in service by the second quarter of 1997, therefore it respectfully requests that the requisite authorization be issued no later than December 31, 1996.

El Paso says that the proposed additional 180,000 Mcf per day of capacity on the Havasu Crossover Line is dedicated to certain executed firm Transportation Service Agreements (TSA) between El Paso and various shippers, which El Paso has filed as privileged and confidential information under Section 388.112 of the Commission's Regulations. These TSAs are subject to the provisions of Rate Schedule FT-1 contained in El Paso's Volume No. 1-A FERC Gas Tariff (tariff) and the applicable rates under Rate Schedule FT-1. Additionally, El Paso says that it has calculated a separate incremental reservation rate attributable to the cost of service of the proposed Havasu Expansion Project which is proposed to become a component of the total Rate Schedule FT-1 Reservation Charges.

El Paso further says that the incremental reservation rate for the Havasu Expansion Project is proposed to be \$3.16616 per dth on a monthly basis and is referred to as the "Havasu Facilities Reservation Charge." The Havasu Facilities Reservation Charge will be used to compensate El Paso for the cost of service for the new facilities while any remaining charges will be subject to the crediting provisions of Section 25.3 of its tariff proposed in El Paso's Stipulation and Agreement in Settlement of Rate and Related Proceedings filed March 15, 1996, at Docket Nos. RP95-363-000, RP95-363-002, and CP94-183-000.

The TSAs executed with the shippers for service on the proposed Havasu Expansion Project contain provisions for payment to El Paso of the new reservation rate component that will be charged in conjunction with the otherwise applicable Reservation Charges and reservation surcharges under Rate Schedule FT-1. The Monthly Reservation Charges for each shipper will be allocated first to the Havasu Facilities Reservation Charge, and any remaining amount to the otherwise applicable charges above.

Any person desiring to be heard or to make any protest with reference to said application should, on or before May 13, 1996, file with the Federal Energy

Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that the request should be granted. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for El Paso to appear or be represented at the hearing.

Lois D. Cashell,  
Secretary.

[Docket No. ER96-1088-000; Docket No. ER95-1528-002]

**Wisconsin Public Service Corporation, WPS Energy Services, Inc., WPS Power Development, Inc. Wisconsin Public Service Corporation; Notice of Issuance of Order**

April 23, 1996.

On February 16, 1996, WPS Energy Services, Inc. and WPS Power Development, Inc. (jointly WPS) filed an application for authorization to sell power at market-based rates, and for certain waivers and authorizations. In particular, WPS requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liabilities by WPS. On April 16, 1996, the Commission issued an Order

Accepting For Filing Proposed Transmission Tariffs, Conditionally Accepting For Filing Proposed Market-Based Rates, Establishing Hearing Procedures, And Granting Rehearing (Order), in the above-docketed proceeding.

The Commission's April 16, 1996, Order granted the request for blanket approval under Part 34, subject to the conditions found in Ordering Paragraphs (I), (J), and (L):

(I) Within 30 days of the date of this order, any person desiring to be heard or to protest the Commission's blanket approval of issuances of securities or assumptions of liabilities by WPS Energy and WPS Power should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214.

(J) Absent a request to be heard within the period set forth in Ordering Paragraph (I) above, WPS Energy and WPS Power are hereby authorized to issue securities and to assume obligations or liabilities as guarantor, endorser, surety or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of the applicant, compatible with the public interest, and reasonably necessary or appropriate for such purpose.

(L) The Commission reserves the right to modify this order to require a further showing that neither public nor private interests will be adversely affected by continued Commission approval of WPS Energy's and WPS Power's issuance of securities or assumptions of liabilities \* \* \*.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is May 16, 1996.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, N.E., Washington, D.C. 20426.

Lois D. Cashell,  
Secretary.

[Docket No. EG96-56-000, et al.]

**Southern Electric Wholesale Generators, Inc. et al.; Electric Rate and Corporate Regulation Filings**

April 19, 1996.

Take notice that the following filings have been made with the Commission:

**1. Southern Electric Wholesale Generators, Inc.**

[Docket No. EG96-56-000]

On April 16, 1996 Southern Electric Wholesale Generators, Inc. ("SEWG"), 900 Ashwood Parkway, Suite 500, Atlanta, Georgia 30338-4780, filed with the Federal Energy Regulatory Commission an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

SEWG is a Delaware corporation that is engaged directly, or indirectly through one or more affiliates as defined in section 2(a)(11)(B) of PUHCA, and exclusively in the business of owning or operating, or both owning and operating, all or part of one or more eligible facilities and selling electric energy at wholesale.

SEWG intends to acquire an indirect ownership interest in a 490 MW coal-fired generating facility located near Lake Michigan in Hammond, Indiana.

*Comment date:* May 10, 1996, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.

**2. SEI State Line, Inc.**

[Docket No. EG96-57-000]

On April 16, 1996 SEI State Line, Inc. ("SEI State Line"), 900 Ashwood Parkway, Suite 500, Atlanta, Georgia 30338-4780, filed with the Federal Energy Regulatory Commission an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

SEI State Line is a Delaware corporation that is engaged directly, or indirectly through one or more affiliates as defined in section 2(a)(11)(B) of PUHCA, and exclusively in the business of owning or operating, or both owning and operating, all or part of one or more eligible facilities and selling electric energy at wholesale.

SEI State Line intends to acquire an indirect ownership interest in a 490 MW coal-fired generating facility located near Lake Michigan in Hammond, Indiana.

*Comment date:* May 10, 1996, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.

**3. State Line Energy, L.L.C.**

[Docket No. EG96-58-000]

On April 16, 1996, State Line Energy, L.L.C. ("State Line Energy"), 900
