

Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of any agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

 informs potential respondents that an
 agency may not conduct or sponsor, and
 that a person is not required to respond
 to, a collection of information unless it
 displays a currently valid OMB control
 number.

1. Type of submission, new, revision,
 or extension: Revision.
2. The title of the information
 collection: NRC Form 483, "Registration
 Certificate—*In Vitro* Testing with
 Byproduct Material under General
 License."
3. The form number if applicable:
 NRC Form 483.
4. How often the collection is
 required: There is a one-time submittal
 of information to receive a validated
 copy of NRC Form 483 with an assigned
 registration number. In addition, any
 changes in the information reported on
 NRC Form 483 must be reported in
 writing to the Commission within 30
 days after the effective date of such
 change.
5. Who will be required or asked to
 report: Any physician, veterinarian in

[IA 96-020]

Mr. Juan Guzman; Order Prohibiting Unescorted Access or Involvement in NRC-Licensed Activities Effective Immediately

I

Mr. Juan Guzman was employed as a
 contractor by the Baltimore Gas &
 Electric Company (BG&E) at the Calvert
 Cliffs facility (Licensee), which holds a
 license issued by the Nuclear Regulatory
 Commission (NRC or Commission)
 pursuant to 10 CFR Part 50. The license
 authorizes the operation of the Calvert
 Cliffs Nuclear Power Plant, Units 1 & 2
 (facilities) in accordance with the
 conditions specified therein. The
 facility is located on the Licensee's site
 in Lusby, Maryland.

II

In a Licensee Event Report issued by
 BG&E on November 16, 1994, the NRC
 received information from BG&E
 indicating that BG&E had revoked Mr.
 Guzman's unescorted access
 authorization and removed him from
 the protected area in October 1994 after
 it became aware through an
 investigation by the Immigration and
 Naturalization Service and State
 Department, that Mr. Guzman was an
 illegal alien.

Mr. Guzman's unescorted access to
 the site initially had been granted by
 BG&E on February 23, 1993 based, in
 part, on his submittal of a "green card"
 and social security card during the
 initial interview process, both of which
 were represented as authentic when, in
 fact, they were not. In addition, when
 questioned on prior occasions by the
 Licensee regarding an arrest record
 obtained as a result of fingerprints
 submitted to the FBI, Mr. Guzman
 repeatedly denied that the arrest record
 belonged to him, even though it did. Mr.
 Guzman's falsification of background
 information, combined with his
 subsequent denials to the Licensee,
 constitute a significant regulatory
 concern.

The NRC regulations in 10 CFR 73.56
 and 73.57 were established, in part, to
 provide high assurance that individuals
 granted unescorted access are
 trustworthy and reliable. Mr. Guzman's
 actions in this matter did not
 demonstrate that trustworthiness, and
 constitute a violation of the
 requirements of 10 CFR 50.5,
 "Deliberate Misconduct," because Mr.
 Guzman deliberately submitted to the
 Licensee information that he knew was
 incomplete or inaccurate in some
 respect material to the NRC.
