

**SUPPLEMENTARY INFORMATION:** A notice of proposed rulemaking was published in the Federal Register on August 19, 1994 (59 FR 42787), inviting comments for a proposed rulemaking which would create a regulated area on the Ashley River in Charleston, South Carolina for the Festival on the Fourth celebration. The day long event included personal watercraft demonstrations, aerial demonstration, ski jumping, and kite skiing throughout the day.

The proposed rulemaking would have created a regulated area between Brittle Bank Park and the main river channel. Entry into this regulated area would have been prohibited to all non-participants annually on July 4, from 11 a.m. to 10:30 p.m. Eastern Standard Daylight Time, unless otherwise specified in the Seventh Coast Guard District Local Notice to Mariners. Since the publication of the Notice of Proposed Rulemaking, the event has been down-sized to such an extent that no federal regulatory action is needed. Therefore, this rulemaking is no longer necessary, and the Coast Guard is terminating further rulemaking under docket number [CGD07-94-017].

Dated: April 22, 1996.

#### **National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule and notice of public hearing.

**SUMMARY:** The EPA proposes standards to reduce emissions of volatile organic compounds (VOC) from the use of automobile refinish coatings. The proposed standards are in the first phase of implementation of the portion of the Clean Air Act (Act) that requires the Administrator to control VOC emissions from certain categories of consumer and commercial products.

Exposure to ozone is associated with a wide variety of human health effects, agricultural crop loss, and damage to forests and ecosystems. As required by section 183(e) of the Act, the Administrator conducted a study to determine the potential of consumer and commercial products to contribute to ozone levels that violate the National Ambient Air Quality Standards (NAAQS) for ozone. Because the automobile refinish coatings category is a significant source of VOC emissions, the EPA is proposing standards to reduce emissions from this source.

**DATES:** *Comments.* Comments must be received on or before July 1, 1996.

*Public Hearing.* A public hearing will be held, if requested. If anyone contacts the EPA requesting to speak at a public hearing by May 21, 1996, a public hearing will be held on May 30, 1996, beginning at 9:00 a.m.
