Science Advisory Board; Notice of Public Meetings

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that various committees and subcommittees of the Science Advisory Board (SAB) will meet on the dates and times described below. All times noted are Eastern Time. All meetings are open to the public. Due to limited space, seating at meetings will be on a first-come basis. For further information concerning specific

meetings, please contact the individuals listed below. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office. [Important Note: This notice contains announcements of one meeting of the Agency's Council on Clean Air Compliance Analysis (CCACA) and one meeting of one of its subcommittees. The CCACA was created under the provisions of Section 812 of the Clean Air Act Amendments of 1990 (42 USC 7401 et seq.), and has been administratively housed within the Agency's Science Advisory Board (SAB). Although chartered as the Council on Clean Air Compliance Analysis (CCACA), it has been customary for the Science Advisory Board to refer to this advisory body as the Clean Air Act Compliance Analysis Council (CAACAC). To prevent any confusion over the activities of this advisory group, it will henceforth be identified only as the Council on Clean Air Compliance Analysis (CCACA).]

(1) *Radiation Advisory Committee (RAC)*: The Science Advisory Board's (SAB) Radiation Advisory Committee (RAC) will meet on May 21 and 22, 1996 at the Courtyard Marriott Hotel, 2899 Jefferson Davis Highway, Arlington, VA 22202 (tel. 703-549-3434), from 9:00 am to 5:00 pm on Tuesday, May 21, 1996; and from 8:30 am to 5:00 pm on Wednesday, May 22. Regarding the ICRP Lung Model discussion, the RAC will have discussed this topic at its publicly advertised teleconference on Tuesday, April 30, 1996 (See 61 FR 15254-15255, April 5, 1996). The RAC is planning to reach closure on its draft commentary (*Commentary on the Scientific Basis for Apportioning of Risk Among the ICRP Publication 66 Regions of the Respiratory Tract*, draft dated March 27, 1996) concerning the new ICRP Human

Respiratory Tract Model for Radiological Protection. The new ICRP model was designed to accommodate the potentially large differences in the doses received and in the radiation sensitivities of the various tissues comprising the respiratory tract, as well as being compatible with the ICRP dosimetry system.

For convenient access, members of the public should use the EPA entrance next to the Safeway store. The meeting will begin at 8:30 a.m. on May 21 and at 8:00 a.m. on May 22 and May 23, and end no later than 5:00 p.m. on each day.

The main purpose of the meeting is to: (a) Discuss ecological risks and the potential for risk reduction as part of the SAB project to update the 1990 SAB report, *Reducing Risk: Setting Priorities and Strategies for Environmental Protection*; and (b) engage in a consultation with Agency staff on the appropriate role of ecological criteria in regulatory and management programs. The Committee may also receive briefings on Agency programs or upcoming review topics.

Background on the Integrated Risk Project: In a letter dated October 25, 1995, to Dr. Matanoski, Chair of the SAB Executive Committee, Deputy Administrator Fred Hansen charged the SAB to: (1) Develop an updated ranking of the relative risk of different environmental problems based upon

explicit scientific criteria; (2) provide an assessment of techniques and criteria that could be used to discriminate among emerging environmental risks and identify those that merit serious, near-term Agency attention; (3) assess the potential for risk reduction and propose alternative technical risk reduction strategies for the environmental problems identified; and (4) identify the uncertainties and data quality issues associated with the relative rankings. The project will be conducted by several SAB panels, including EPEC, working at the direction of an ad hoc Steering Committee established by the Executive Committee.

Single copies of *Reducing Risk* can be obtained by contacting the SAB's Committee Evaluation and Support Staff (1400), 401 M Street, SW., Washington, DC 20460, telephone (202) 260-8414, or fax (202) 260-1889. Members of the public desiring additional information about the meeting, including an agenda, should contact Ms. Constance Valentine, Staff Secretary, Science Advisory Board (1400F), US EPA, 401 M Street, SW., Washington DC 20460, by telephone at (202) 260-6552, fax at (202) 260-7118, or via The INTERNET at: Valentine.Connie@EPAMAIL.EPA.GOV.

Anyone wishing to make an oral presentation at the meeting should contact Stephanie Sanzone, Designated Federal Official for EPEC, no later than 4:00 p.m., May 15, 1996, at (202) 260-6557 or via the Internet at Sanzone.Stephanie@epamail.epa.gov. The request should identify the name of the individual who will make the presentation and an outline of the issues to be addressed. At least 35 copies of any written comments to the Committee are to be given to Ms. Sanzone no later than the time of the presentation for distribution to the Committee and the interested public. See below for additional information on providing comments to the SAB.

Providing Oral or Written Comments at SAB Meetings: The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, opportunities for oral comment at meetings will be usually limited to five minutes per speaker and no more than thirty minutes total. Teleconference comments are generally limited to three minutes each, and no more than fifteen minutes total. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date (usually one week prior to a meeting), may be mailed to the respective committee or subcommittee

prior to its meeting; comments received too close to the meeting date will normally be provided to the committee or subcommittee at its meeting, except for teleconferences, where brief written materials may be FAXed to the participants, with more detailed or lengthy materials received too close to the teleconference to be mailed to the subcommittee or committee participants shortly after the teleconference. Written comments may be provided up until the time of the meeting.

On May 17th, the meeting will be held at the USEPA, Main Auditorium, Environmental Research Center (ERC), corner of Route 54 and Alexander Drive, Research Triangle Park, NC 27711. The meeting will begin at 8:30 a.m. and end no later than 5:00 p.m. on both days (times noted are Eastern Time). The meeting is open to the public. Due to limited space, seating at the meeting will be on a first-come first-serve basis. *Important Notice:* Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office—information concerning document availability from the relevant Program area is included below. See 60 FR 62089-62090 for further information.

Purpose of the Meeting

At this meeting, the Committee will review and provide advice to EPA on the draft staff paper for particulate matter (*Review of National Ambient Air Quality Standards for Particulate Matter: Policy Assessment of Scientific and Technical Information*). The purpose of the staff paper is to evaluate and interpret the most relevant

scientific and technical information reviewed in the air quality criteria document in order to better specify the critical elements which the EPA staff believes should be considered in any possible revisions to the national ambient air quality standards (NAAQS) for particulate matter. This document is intended to bridge the gap between the scientific review contained in the criteria document and the judgments required of the Administrator in setting a NAAQS. The Committee will also review draft the technical support document: *A Particulate Matter Risk Analysis for Philadelphia and Los Angeles*. The Committee will consider presentations from Agency staff and the interested public prior to making recommendations to the Administrator.

Availability of Review Materials

(a) *Review of National Ambient Air Quality Standards for Particulate Matter: Policy Assessment of Scientific and Technical Information (The Draft Staff Paper)*—Single copies of the draft particulate matter staff paper may be obtained from Ms. Tricia Crabtree, Office of Air Quality Planning and Standards (MD-15), U.S. EPA, Research Triangle Park, NC 27711. For INTERNET access—go to Telenet Site and enter TTNBBS.RTPNC.EPA.GOV or IP Number 134.67.234.17. For INTERNET, we do not have FTP to download documents. Requester must have Kermit Protocol Program or pay a fee for SLIP account for downloading capabilities. Once in the TTN Bulletin Board, you must register (there is no charge for this). At the prompt for name, you should enter your name; at the prompt for password, make up a password (8 characters); select registration and enter registration

information including company name. Then follow instructions. For assistance in assessing the draft materials, please contact the Help Desk at (919) 541-5384 in Research Triangle Park, NC.
