

remaining parts (fuel injectors, camshafts, blower and turbocharger) could be purchased or supplied separately as long as such parts were Engelhard specified OEM components or their equivalent.

Under supply option 2, Engelhard would supply all components in the kit as described in the notification of intent to certify.

Under supply option 3, Engelhard would supply the coated engine components, the catalytic converter muffler, and the new engine components (cylinder kits, blower bypass valve, air inlet hose, and gaskets). The remanufactured components (fuel injectors, camshafts, blower assembly and turbocharger) would be required to be remanufactured by Engelhard Certified Remanufacturers. Such "certified remanufacturers" would consist of transits or other third parties designated by Engelhard as capable of remanufacturing these components within the tolerances prescribed by Engelhard with proper quality control. Engelhard proposed to provide training to those interested in becoming a certified Engelhard remanufacturer.

EPA expects to evaluate each of these supply options and their impact on life cycle costs. Also, EPA will evaluate whether any of these options will compromise the ability of the Engelhard kit to achieve 0.1 g/bhp-hr PM standard in the field.

If EPA approves the request for certification of this equipment, urban bus operators who choose to comply with compliance Option 1 of this regulation will be required to use this equipment or other equipment certified to the 0.1 g/bhp-hr standard beginning six months after certification approval, when applicable engines are rebuilt or replaced.

If EPA approves Engelhard's certification request, urban bus operators who chose to comply under compliance Option 2 of this regulation may also use the Engelhard equipment. If certification is approved by EPA, the emission levels of the Engelhard rebuild kit will be used to modify the Option 2 post-rebuild levels in July 1996.

The date of this notice initiates a 45 day period during which EPA will accept written comments relevant to whether or not the equipment described in this application should be certified. Interested parties are encouraged to review this application, and provide comments related to whether or not the equipment described in it should be certified pursuant to the urban bus retrofit/rebuild program. Comments should be provided in writing to the

address listed under the Addresses section of this notice.

The Agency will review this notification of intent to certify, along with comments received from the interested parties, and attempt to resolve or clarify issues as necessary. During the review process, EPA may add additional documents to the docket as a result of the review process. These documents will also be available for public review and comment within the 45 day period.

Dated: April 26, 1996.

Acting Assistant Administrator for Office of Air and Radiation.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Announcement 123]

National Institute for Occupational Safety and Health; Grants for Education Programs in Occupational Safety and Health; Notice of Availability of Funds for Fiscal Year 1997

Introduction

The Centers for Disease Control and Prevention (CDC) announces that

applications are being accepted for fiscal year (FY) 1997 training grants in occupational safety and health. The purpose of these grants is to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Safety and Health Act. This announcement includes an expanded emphasis on research and research training and an emphasis on establishing new and innovative training technologies for both Educational Resource Centers (ERCs) and Training Project Grants (TPGs).

CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Occupational Safety and Health. (For ordering a copy of "Healthy People 2000," see the section "WHERE TO OBTAIN ADDITIONAL INFORMATION.")

Authority

This program is authorized under section 21(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 670(a)). Regulations applicable to this program are in 42 CFR Part 86, "Grants for Education Programs in Occupational Safety and Health."

Smoke-Free Workplace

PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Any public or private educational or training agency or institution that has demonstrated competency in the occupational safety and health field and is located in a State, the District of Columbia, or U.S. Territory is eligible to apply for a training grant.

Availability of Funds and Types of Training Awards and Applicant Characteristics

CDC expects approximately \$11,500,000 to be available in FY 1997.

A. Approximately \$10,400,000 of the total funds available will be utilized as follows:

1. To award approximately eight non-competing continuation and six competing continuation or new Occupational Safety and Health training
