

conventional tug/barge combinations under 10,000 gross tons do not currently require assistance tugs. A majority of the documented Chelsea Street Bridge allisions since implementation of the existing regulations involved tug/barge combinations under 10,000 gross tons. The Coast Guard is soliciting comment regarding the possibility of applying current or future size restrictions that apply to ITBs to tug/barge combinations under 10,000 gross tons. Should the same draft and size limitations and tug assist requirements that apply to tankships of similar length and beam apply to tug/barge combinations of any tonnage? Should additional, fewer, or the same number of assist tugs be required for tug/barge combinations?

#### Registration of Claims to Copyright, Group Registration of Photographs

**AGENCY:** Copyright Office, Library of Congress.

**ACTION:** Extension of comment period.

**SUMMARY:** The Copyright Office is extending the comment period in its consideration of regulations permitting group registration of unpublished or published photographs.

**DATES:** The extended deadline for comments is February 9, 1996, and for reply comments is March 1, 1996.

**ADDRESSES:** If sent by mail, fifteen copies of written comments should be addressed to Marilyn J. Kretsinger, Acting General Counsel, Copyright GC/I&R, P.O. Box 70400, Southwest Station, Washington, D.C. 20024. Telephone: (202) 707-8380. Telefax: (202) 707-8366. If by hand, fifteen copies should be brought to: Office of the General Counsel, Copyright Office, James Madison Memorial Building, Room LM-407, First and Independence Avenue, S.E., Washington, D.C. 20540.

**FOR FURTHER INFORMATION CONTACT:** Marilyn J. Kretsinger, Acting General Counsel, Telephone: (202) 707-8380 or Telefax: (202) 707-8366.

**SUPPLEMENTARY INFORMATION:** On December 4, 1995, the Copyright Office published proposed regulations that permit group registration of unpublished or published photographs without the deposit of copies of the works. 60 FR 62057 (Dec. 4, 1995). The proposed regulations would enable photographers and photography businesses to seek the benefits of registration by making it less burdensome for them to register a claim to copyright in a large number of

photographs taken by a single photographer or photography business.

Due to the inordinate number of government and business closures that occurred during this time period, the Office is extending the period for submitting comments from January 18, 1996, to February 9, 1996, and the deadline for reply comments from February 2, 1996, to March 1, 1996.

Dated: January 23, 1996.

### 40 CFR Part 52

[DE26-1-6940b; FRL-5320-2]

#### Approval and Promulgation of Air Quality Implementation Plans; Delaware: Regulation 24, Control of Volatile Organic Compound Emissions (VOC RACT Catch-Ups)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Delaware on December 19, 1994. The revision consists of Sections 10, 11, 12, 44, 45, 47, 48, and 49 and Appendices I, K, L and M to Regulation 24—"Control of Volatile Organic Compound Emissions". These regulations are necessary to satisfy the Clean Air Act (CAA) and to support attainment and maintenance of the National Ambient Air Quality Standard (NAAQS) for ozone in Delaware. In the Final Rules section of the Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments must be submitted in writing by February 26, 1996.

**ADDRESSES:** Comments may be mailed to Marcia L. Spink, Associate Director, Air Programs, Mailcode 3AT00, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. Copies of the documents relevant to this action are available for public inspection during normal business hours at the EPA office listed above; and the Delaware Department of Natural Resources & Environmental Control, 89 Kings Highway, P.O. Box 1401, Dover, Delaware 19903.

**FOR FURTHER INFORMATION CONTACT:** Rose Quinto, (215) 597-3164, at the EPA Region III address above.

**SUPPLEMENTARY INFORMATION:** See the information provided in the Direct Final action of the same title (Regulation 24, Control of Volatile Organic Compound Emissions) which is located in the Rules and Regulations Section of this Federal Register.

[IL-18-6-6516b; FRL-5334-3]

#### Approval and Promulgation of Implementation Plan; Illinois

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposed rule.

**SUMMARY:** On October 21, 1993, and March 4, 1994, the Illinois Environmental Protection Agency (IEPA) submitted to the USEPA volatile organic compound (VOC) rules that were intended to satisfy part of the requirements of section 182(b)(2) of the Clean Air Act (Act) amendments of 1990. Specifically, these rules provide control requirements for certain major sources not covered by a Control Technique Guideline (CTG) document. These non-CTG VOC rules apply to sources in the Chicago ozone nonattainment area which have the potential to emit 25 tons of VOC per year. These rules therefore provide an environmental benefit due to the

imposition of control requirements on sources emitting greater than 25 tons of VOC per year that belong to certain source categories. IEPA estimates that these rules will result in VOC emission reductions, from 119 industrial plants, of 2.78 tons per day. The USEPA proposed to approve these VOC rules for major non-CTG sources. This action lists the State implementation plan revision that USEPA is proposing to approve and provides an opportunity for public comment. A rationale for approving this request is presented in the final rules section of this Federal Register, where USEPA is approving the revision request as a direct final rule without prior proposal because USEPA views this as a noncontroversial revision and anticipates no adverse comments. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments the direct final rule will be withdrawn. Any parties interested in commenting on this notice should do so at this time. The final rule on this proposed action will address all comments received.

**DATES:** Comments on this document must be received by February 26, 1996.

**ADDRESSES:** Written comments should be addressed to: J. Elmer Bortzer, Chief, Regulatory Development Section, Regulatory Development Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Comments should be strictly limited to the subject matter of this proposal.

Copies of the State submittal and USEPA's analysis of it are available for inspection at: Regulation Development Section, Regulation Development Branch (AR-18J) Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.
