

No other comments, and no requests for a hearing, were received by the Department on the Proposal.

Accordingly, based on all of the facts and representations made by the applicant, the Department has determined to grant the proposed exemption as modified.

FOR FURTHER INFORMATION CONTACT: Mr. E. F. Williams of the Department, telephone (202) 219-8194. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 30th day of May, 1996.

Ivan Strasfeld,

*Director of Exemption Determinations,
Pension and Welfare Benefits Administration,
U.S. Department of Labor.*

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 96-053]

Notice of Prospective Copyright License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Prospective Copyright License.

SUMMARY: NASA hereby gives notice that NextGen Systems, Incorporated, 1006 W. Ninth Avenue, King Of Prussia, Pennsylvania 19406, has applied for a partially exclusive license to practice the U.S. Copyright in the "Method for Visually Integrating Multiple Data Acquisition Technologies for Real Time and Retrospective Analysis Software Code" (also known as "Crew Response Evaluation Window (CREW)"), for which a U.S. Copyright Registration Application was filed on May 3, 1996, by the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Ms. Robin W. Edwards, Patent Attorney, Langley Research Center.

DATES: Responses to this notice must be received by August 5, 1996.

FOR FURTHER INFORMATION CONTACT: Ms. Robin W. Edwards, Patent Attorney, NASA Langley Research Center, Mail Cope 212, Hampton, VA 23681; telephone (804) 864-3230.

Dated: May 24, 1996.

Edward A. Frankle,
General Counsel.

BILLING CODE 6820-36-P

NUCLEAR REGULATORY COMMISSION

[Docket No.: 27-47]

Consideration of Application for Renewal of a License To Dispose of Low-Level Radioactive Waste Containing Special Nuclear Material by Chem-Nuclear Systems, Inc., and Opportunity for a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of consideration of an application for renewal of a license to dispose of low-level radioactive waste containing special nuclear material by Chem-Nuclear Systems, Inc., and opportunity for a hearing.

The Nuclear Regulatory Commission (NRC) is considering the renewal of License No. 12-13536-01. This license is issued to Chem-Nuclear Systems, Inc. (CNSI) for the disposal of wastes containing special nuclear material (SNM) in the low-level radioactive waste (LLW) disposal facility, located near Barnwell, South Carolina. NRC licenses this facility under 10 CFR Part 70. The license renewal application was submitted on April 10, 1996.

The LLW disposal facility located near Barnwell, South Carolina, is licensed by the State of South Carolina for disposal of source and byproduct material. The NRC license allows the disposal of SNM, and acknowledges that the State's regulated activities constitute the major site activities. As a result, NRC relies extensively on the State's regulatory program to evaluate the facility and licensee's capability to demonstrate reasonable assurance that the disposal of LLW can be accomplished safely. To this end, NRC coordinates the review and assessment of the license with the State of South Carolina Department of Health and Environmental Control. To avoid a duplicate effort, NRC has identified several areas in which it relies primarily on the State regulatory program. Areas distinct to SNM regulation are directly evaluated by NRC. Under the NRC license, several State identified license conditions are referenced. This approach ensures that NRC is aware of significant licensee activities requiring State regulatory action. Additionally,

NRC incorporates conditions in the SNM license which provide NRC the latitude to enforce the Agreement State license conditions, if NRC determines such action is necessary. Finally, the NRC license does not abrogate or diminish the authority of the State governed by its agreement under section 274b of the Atomic Energy Act of 1954, as amended, with NRC, to regulate, inspect or otherwise exercise control of operations, with respect to the source and byproduct material, for disposal of that material at the LLW disposal facility at Barnwell, South Carolina.

Prior to the issuance of the proposed renewal, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment.

The NRC provides notice that this is a proceeding on an application for a license amendment falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR Part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this Federal Register notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Docketing and Service Branch of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738; or
2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Docketing and Service Branch

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requester in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);
3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and

4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

1. The applicant, Chem-Nuclear Systems, Inc., 140 Stoneridge Drive, Columbia, South Carolina 29210, Attention: Mr. William B. House, and;

2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

For further details with respect to this action, the application for amendment request is available for inspection at the NRC's Public Document Room, 2120 L Street NW., Washington, DC 20555.

FOR FURTHER INFORMATION CONTACT: Timothy E. Harris, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone: (301) 415-6613. Fax: (301) 415-5398.

Dated at Rockville, Maryland, this 28th day of May, 1996.

For the Nuclear Regulatory Commission.
Robert A. Nelson,
Acting Chief, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.
