DEPARTMENT OF ENERGY

[FE Docket No. EA-114]

Application to Export Electricity MidCon Power Services Corp.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: MidCon Power Services Corp. (MPS) has requested authorization to export electric energy to Canada. MPS is a marketer of electric energy. It does not own or control any electric generation or transmission facilities.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 5, 1996.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585-0350.

FOR FURTHER INFORMATION CONTACT: William H. Freeman (Program Office) 202-586-5883 or Michael T. Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On May 21, 1996, MPS filed an application with the Office of Fossil

Energy (FE) of the Department of Energy (DOE) for authorization to export electric energy to Canada pursuant to section 202(e) of the FPA. MPS neither owns nor controls any facilities for the transmission or distribution of electricity, nor does it have a franchised retail service area. Rather, MPS is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) to engage in the wholesale sale of electricity in interstate commerce at negotiated rates pursuant to its filed rate schedules.

In its application, MPS proposes to sell electric energy to Canada. The electric energy MPS proposes to transmit to Canada would be purchased from electric utilities and other generators. MPS asserts that such energy would be surplus to the requirements of the selling utility or generator. MPS would arrange for the exported energy to be wheeled from the selling entities, over existing domestic transmission facilities, and delivered to the foreign purchaser over one or more of the following international transmission lines for which Presidential permits (PP) have been previously issued: New York Power Authority's (NYPA) 230-kilovolt (kV), lines at Massena, New York (PP-25), and Devil's Hole, New York (PP-30); NYPA 765 kV line at Fort Covington, New York (PP-56); the NYPA 345-kV lines at Niagara Falls, New York (PP-74); Niagara Mohawk Power Corporation's (NIMO) 4.8-kV Hogsburg, New York line (PP-13); and NIMO's 13.2-kV line at Covington, New York, 230-kV(3 Phase) and 2-69-kV lines at Devil's Hole, New York, 38-kV Buffalo, New York lines, 69-kV lines at Queenstown, New York, and 12-kV(3/cables) Rainbow Br., New York lines (PP-31).

Any determination by the DOE to grant the request by MPS for export authorization will be conditioned to require MPS to comply with all reliability criteria, standards, and guidelines of the North American Electric Reliability Council and Regional Councils.

PROCEDURAL MATTERS: Any persons desiring to be heard or to protest this application should file a petition to intervene or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the rules of practice and procedure (18 CFR 385.211, 385.214). Fifteen copies of such petitions and protests should be filed with the DOE on or before the date listed above. Additional copies are to be filed directly with: Mr. Dennis Lawler, Vice President, MidCon Power Services Corp., 701 East 22nd Street, Lombard,

Illinois 60148 AND Mr. Peter Y. Connor, Esq., 801 15th Street, Wilmette, Illinois 60091.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969 (NEPA), and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, DC, on May 31, 1996.

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.
