Pioneer's Preference Requests

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Commission's Office of Engineering and Technology has announced a filing deadline for submission of amendments to pending pioneer's preference requests. This announcement follows approval by the Office of Management and Budget of a new information collection pertaining to the pioneer's preference program. The intended effect of this action is to bring pending pioneer's preference requests into compliance with new rules adopted in 1995.

DATES: Amendments are due by June 21, 1996.

FOR FURTHER INFORMATION CONTACT: Rodney Small, (202) 418-2452, Office of Engineering and Technology, Federal Communications Commission, Washington, DC 20554.

SUPPLEMENTARY INFORMATION:

May 14, 1996.

Filing Deadline Announced for Submission of Amendments to Pending Pioneer's Preference Requests

In the *Memorandum Opinion and Order (Order)* in ET Docket No. 93-266, FCC 95-493, 61 FR 4916 (February 9, 1996), the Commission stated that, subsequent to approval by the Office of Management and Budget (OMB) of a new information collection pertaining to the pioneer's preference program, the Chief, Office of Engineering and Technology would announce a date for the submission of amendments to pending pioneer's preference requests that have not reached the Tentative Decision Stage, and publish that date in the Federal Register; see para. 14 of *Order*. OMB has approved this new information collection and has assigned it OMB control number 3060-0446. Accordingly, this Public Notice establishes the filing deadline as June 21, 1996.

By that date, a party that has a pending pioneer's preference request in a proceeding that has not reached the Tentative Decision Stage and that has not previously filed an amended request pertaining to the new requirements adopted in the *Second Report and Order* and *Third Report and Order* in Docket 93-266 (see, respectively, FCC 95-80, 60 FR 13396 (March 13, 1995); and FCC 95-218, 60 FR 32116 (June 20, 1995)) must submit an amended request. Specifically, such a party must submit a statement that a new allocation of spectrum is necessary for its innovation to be implemented. Further, if the party relied on experimental results to demonstrate the technical feasibility of its innovation, it must submit a summary of those experimental results. Additionally, for parties filing pioneer's preference requests after September 1, 1994, such parties must submit a showing demonstrating that the Commission's public rulemaking process would inhibit the party from capturing the economic rewards of its innovation unless it is granted a pioneer's preference license; i.e., the party must show that it may lose its intellectual property protection because of the Commission's public process; that the damage to its intellectual property would likely be more significant than in other contexts, such as the patent process; and that the guarantee of a license would be a significant factor in its ability to capture the rewards from its innovation.

Failure by any party with a pending pioneer's preference request in a

proceeding that has not reached the Tentative Decision Stage to amend its request by June 21, 1996, will result in the dismissal of the request by the Chief, Office of Engineering and Technology.
