\*SFA means school food authority.

*Estimated Total Annual Burden on Respondents:* The total estimated annual burden for those respondents administering and/or operating the National School Lunch Program is 9,136,382 hours, with a reduction of 13,085,579 burden hours attributed to the elimination of requirements associated with performing edit checks and demonstrating nonprofitability. The total estimated annual burden for the School Breakfast Program is 3,667,170 hours, with a reduction of 2,650,801 burden hours attributed to the elimination of nonprofitability requirements.

Dated: June 19, 1996.

**Agency Information Collection Activities: Proposed Collection; Comment Request—Summer Food Service Program for Children**

**AGENCY:** Food and Consumer Service, USDA.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this Notice announces the Food and Consumer Service's (FCS) intention to request Office of Management and Budget (OMB) review of the information

collections for the Summer Food Service Program for Children (SFSP).

**DATES:** To be assured of consideration, comments must be received by August 26, 1996.

**ADDRESS:** Send comments and requests for copies of this information collection to: Mr. Terry Hallberg, Chief, Program Analysis and Monitoring Branch, Child Nutrition Division, Food and Consumer Service, U.S. Department of Agriculture, 3101 Park Center Drive, Room 1008, Alexandria, Virginia 22302.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this Notice will be summarized and included in the request for OMB approval, and will become a matter of public record.

**FOR FURTHER INFORMATION:** Mr. Terry Hallberg at (703) 305-2600.

**SUPPLEMENTARY INFORMATION:**

*Title:* 7 CFR Part 225, Summer Food Service Program for Children.

*OMB Number:* 0584-0280.

*Expiration Date:* July 31, 1996.

*Type of Request:* Extension of clearance for existing collection.

*Abstract:* Section 13 of the National School Lunch Act (NSLA) (42 U.S.C. 1761 authorizes the SFSP. Subsection 13(m) of the NSLA directs that "States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary."

SFSP provides assistance to States to initiate and maintain nonprofit food service programs for needy children during summer months and at other approved times. The food service to be provided under SFSP is intended to serve as a substitute for those programs (the National School Lunch and School Breakfast Programs) for children who primarily are from needy areas. Under this Program, a sponsor—a public or

nonprofit private school food authority; a public or nonprofit private residential summer camp; a unit of local, municipal, county, or State government; a public or private nonprofit college or university currently participating in the National Youth Sports Programs (NYSP); or a private nonprofit organization which develops a summer or other school vacation program providing food service similar to that offered during the school year—receives reimbursement for serving nutritious well-balanced meals to eligible children at food service sites.

*Estimate of Burden:* The reporting burden for this collection of information is estimated at 204,395 burden hours. The major areas of the reporting burden are attributed to the processing of applications for participation by State agencies, sponsors and camps; and program monitoring of sites by State agencies and sponsors, including the inspection of food preparation facilities; i.e., 63,189 and 86,779 hours, respectively. The recordkeeping burden is estimated at 17,574 burden hours. Free and reduced price eligibility determination for participants in camps and sites not identified as areas in which poor economic conditions exist, comprises the majority of the recordkeeping burden, i.e., 16,694 hours.

*Respondents:* State agencies, sponsors, food service management companies, camps, households.

*Estimated Number of Respondents:* 79,350 respondents.

*Estimated Number of Responses per Respondent:* 4.2 responses.

*Estimated Total Annual Burden on Respondents:* 221,969 burden hours.

Dated: June 20, 1996.

BILLING CODE 3410-30-P

## Forest Service

### Cascade Pt. Access Rd. and Development, Tongass National Forest, Chatham Area, Juneau Ranger District, Juneau, AK

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** The Department of Agriculture, Forest Service will prepare an Environmental Impact Statement (EIS) to disclose the environmental impacts of authorizing construction of approximately 3 miles of new road on National Forest System (NFS) lands near

Echo Cove, approximately 40 miles north of Juneau, Alaska. The proposed action is to issue a road easement authorizing Goldbelt, Inc., an urban Native Corporation authorized by the Alaska Native Claims Settlement Act, to construct a 28 ft. wide gravel road for the purpose of accessing Goldbelt, Inc. private lands. Initial development on the private land would include a 3 acre staging area and an equipment and log transfer bulkhead on the beach. Although the development on private land would not be subject to Forest Service authorization, it would require a US Army, Corps of Engineers, Section 404 permit for fill in wetlands, as well as a Section 10 permit for a structure below Mean High Water in Berners Bay. Proposed road construction would also probably require a Section 404 permit for fill in wetlands. Since the proposed road construction would likely result in development on private land, both will be considered in this EIS. The Corps of Engineers has consented to be a cooperating agency.

Dunn Environmental Services, of Juneau Alaska, has been selected as a 3rd party contractor to prepare the EIS.

The Forest Service is seeking information and comments from Federal, State, and local agencies as well as individuals and organizations who may be interested in, or affected by, the proposed action.

**DATES:** Comments concerning the scope of this analysis should be received on or before July 29, 1996.

**ADDRESSES:** Send written comments or requests for additional information to: Jennette de Leeuw, USDA Forest Service, Juneau Ranger District, 8465 Old Dairy Rd., Juneau, Alaska, 99801, (907) 586-8800; or Art Dunn, Dunn Environmental Services, 19890 Cohen Dr., Juneau Alaska 99801 (907) 463-3243.

**SUPPLEMENTARY INFORMATION:** The purpose and need for the proposed action is to provide access to Goldbelt, for development of privately owned lands in Echo Cove. Reasonably foreseeable actions on Goldbelt, Inc. private land include: a fast ferry to Haines and Skagway; a lodge/restaurant, a convenience store and gas station; electrical and water/sewage facilities, and commercial fishing support facilities. A Master Plan for Goldbelt, Inc. lands at Echo Cove has been submitted to the City and Borough of Juneau for review and approval. The activities mentioned above are described in detail in that document. Other activities planned could include housing and related facilities for workers at the historic Jualin Mine

Exploration site, approximately 5 miles away. No proposal for development of the Jualin Mine has been received, and only continued exploration at the site will be considered as reasonably foreseeable.

The no action and proposed action alternatives will be considered, as well as alternatives which address significant issues and meet the purpose and need for the proposed action.

The proposed road alignment is located on a 100 ft. wide strip of NFS land acquired from Goldbelt, Inc. in a land trade in 1984, to preserve Forest Service land access to NFS lands to the north. An Environmental Assessment for a proposed timber sale at that time also examined several alternative alignments and chose this proposed alignment as the most feasible.

Preliminary issues that have been identified include impacts to recreational opportunities in Echo Cove and the National Forest System lands around Berners Bay (Congressionally Legislated LUD II); disruption of brown and black bear habitat, mountain goat wintering habitat, and pacific herring spawning habitat; and visual and noise impacts to Pt. Bridget State Park, approximately 2 miles west of Cascade Pt.

Preliminary scoping comments on the proposal were solicited from February 8 through March 1, 1996. An open house meeting was held on February 8, 1996 in Centennial Hall, Juneau, Alaska. Over 70 written comments were received in response to the meeting.

Because of this extensive public involvement and information from a number of existing studies in the area for other proposals, the draft EIS should be available for public distribution in late August of 1996. The final EIS is scheduled to be completed in October of 1996. It is anticipated that permit applicants for Sec. 404 and Sec. 10 Corps of Engineers permits will be incorporated in the DEIS.

The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the Federal Register.

Gary Morrison, the Forest Supervisor, Tongass National Forest, Chatham Area, is the official responsible for making the decision. The decision to be made is whether or not to issue a road easement for construction of an access road on National Forest System land as proposed, and if the easement is granted, decide the mitigation measures that will be required. The US Army, Corps of Engineers will issue a separate decision document, based on the
