NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission: Revision.
2. The title of the information collection: 10 CFR Part 35, "Medical Use of Byproduct Material."
3. The form number: Not applicable.
4. How often the collection is required: Required reports are collected and evaluated on a continuing basis as needed due to a change in programs or as events occur.
5. Who will be required or asked to report: Physicians and medical institutions who are applicants for, or hold, an NRC license authorizing the administration of byproduct material, or its radiation, to humans for medical use.
6. An estimate of the number of responses: 1,882,283 responses from NRC licensees and

4,705,652 responses from Agreement State licensees.

7. The estimated number of annual respondents: 1,982 NRC licensees and 4,955 Agreement State licensees.

8. An estimate of the total number of hours needed annually to complete the requirement or request: 376,407 hours for NRC licensees and 942,820 hours for Agreement State licensees.

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Not applicable.

10. Abstract: 10 CFR Part 35, "Medical Use of Byproduct Material," contains requirements that apply to NRC licensees who are authorized to administer byproduct material, or its radiation, to humans for medical use. The information in the required reports and records is used by the NRC to ensure that public health and safety is protected, and that the licensee possession and use of byproduct material is in compliance with license and regulatory requirements. The revision is a net increase adjustment in burden resulting from an increase in the number of affected licensees, a reevaluation of the time required to perform individual activities and the number of times those activities are performed, and an addition of burden associated with three sections, two of which are a result of rulemaking, and one which was inadvertently omitted during the last evaluation of burden.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advance Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608. Additional assistance in locating the document is available from the NRC Public Document Room, nationally at 1-800-397-4209, or within the Washington, DC, area at 202-634-3273.

Comments and questions should be directed to the OMB reviewer by August 8, 1996: Peter Francis, Office of Information and Regulatory Affairs (3150-0010), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.
