

The lands to be exchanged have been determined to be of equal value.

This lands exchange and boundary adjustment is being proposed to facilitate Tacoma's operation of the Lake Cushman hydroelectric project, which periodically inundates the above federal land within ONP. Management of these lands, although being conveyed to Tacoma and being removed from the boundary of ONP, will continue to include public access and resource protection through a management agreement.

The exchange also provides for the U.S. acquisition of State lands within the boundaries of ONP, which will be administered by NPS. Acquisition of these lands will provide protection to valuable wildlife habitat, wilderness, cultural and recreational resources within ONP.

There are no leases or permits to other third parties affecting the federal lands proposed for disposal. These lands have been surveyed for cultural resources and threatened/endangered species and found suitable for disposal given the mitigation measures provided by agreement.

Public comments will be accepted for a period of 45 calendar days from the publication date of this notice. Comments should be sent to the Superintendent, Olympic National Park at the above address.

In the absence of any subsequent action to modify or vacate the proposed exchange and boundary adjustment, this realty action to proceed with the exchange and boundary adjustment will become the final determination of the Department of the Interior.
