expanded schedule for the Commission's proposed technical conference, and request that the Commission issue, following such conferences, a Supplemental NOPR or Notice of Clarification upon which the parties would then be allowed to submit comments.

Upon consideration, notice is hereby given that the August 1, 1996 deadline for filing written comments is extended to October 21, 1996 and that the Commission will convene a technical conference on September 20, 1996. Because participants will now have the opportunity to submit comments following the technical conference, the Commission has decided to hold a oneday technical conference rather than the two-day conference mentioned in the CRT NOPR. The agenda and the times for the technical conference will be announced at a later date. In addition, the Commission may schedule further procedures and offer further guidance based on the outcome of the technical conference.

Lois D. Cashell,

Secretary.

[AS-AZ-CA-HW-NV-000-0001; FRL-5541-8]

Correction of Implementation Plans; American Samoa, Arizona, California, Hawaii, and Nevada State Implementation Plans

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** EPA is proposing to promulgate corrections to the American Samoa State Implementation Plan (SIP), the Arizona SIP, the California SIP, the Hawaii SIP, and the Nevada SIP. These corrections concern the deletion from the SIPs of the rules summarized in Table 1. These rules include a variety of administrative provisions concerning variances, hearing board procedures, and fees. EPA has determined that the rules to be deleted from the abovereferenced SIPs were erroneously incorporated into the SIPs by the EPA, and in addition, the variance provisions currently in the SIPs were rendered without legal effect by amendments to the Clean Air Act enacted by Congress in 1977. In addition, the continued

presence of these provisions in the SIPs is potentially confusing, and thus, harmful to the regulated community, the states, and EPA. The intended effect of proposing these corrections to the SIPs is to delete the above referenced rules and make the SIPs consistent with the requirements of the Clean Air Act, as amended in 1990 (CAA or "the Act"), regarding EPA action on SIP submittals and SIPs for national primary and secondary ambient air quality standards. DATES: Comments must be received on or before August 26, 1996.

**ADDRESSES:** Comments may be mailed to: Daniel A. Meer, Rulemaking Section (A–5–3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901.

Copies of the rules being proposed for deletion are available for public inspection at EPA's Region IX office during normal business hours. Copies of the rules are also available for inspection at the locations listed in SUPPLEMENTARY INFORMATION under "Public inspection".

FOR FURTHER INFORMATION CONTACT: Julie A. Rose, Rulemaking Section (A–5–3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105 Telephone: (415) 744–1184.

#### Applicability

This document addresses EPA's proposed action for the rules summarized in the table following this document.

#### Background

The Clean Air Act was first enacted in 1970. At this time, a large number of state and district rules and regulations were submitted to the EPA for incorporation into the SIPs in order to fulfill the new federal requirements. In many cases states and districts submitted their entire regulatory air pollution programs, including many elements not required by the Act. Due to resource and budget constraints, EPA's review of these submittals focused primarily on the substantive technical, legal, and enforcement elements of the submittals. At the time, EPA did not perform a detailed review of the numerous administrative provisions, which in many cases included procedures for granting variances, hearings, fee provisions.

#### Variance Provisions

A new section 110(i) was added to the Act when it was amended in 1977.

Section 110(i) prohibits the modification of any requirement of an applicable SIP by any means other than a SIP revision. Section 110(i) contains the following exceptions from this requirement: primary nonferrous smelter orders under section 119, emergency suspensions issued by the President under 110(f) or the Governor under 110(g), exemptions issued by the President for federal facilities under section 118, and compliance orders under section 113(d).

Variance provisions that were mistakenly incorporated into the applicable SIPs provide for modification of the requirements of these applicable SIPs. Because these variance provisions do not fall under any of the exceptions set forth in section 110(i), they are prohibited by, and are not legally enforceable pursuant to, section 110(i) of the Act.

Because variance provisions are prohibited by section 110(i) of the Act, their incorporation into the SIP is not only inconsistent with the Act but confusing to the regulated industry. A state or district issued variance has no effect on the federal enforceability of a provision unless the variance is submitted to EPA and approved into the SIP as a source-specific SIP revision. However, the variance provisions do not state this fact and their inclusion in the SIP is misleading.

In addition to being prohibited by section 110(i) of the Act and misleading to the regulated community, the variance provisions have no relationship to the requirements of section 110 and Part D of the Act. For these reasons, EPA is proposing to delete the variance provisions listed in Table 1 from the SIPs for American Samoa, Arizona, California, Hawaii, and Nevada.

Hearing Board Procedures and Miscellaneous Administrative Provisions

In addition to the specific variance provisions discussed above, many of the American Samoa, Arizona, California, Hawaii, and Nevada SIPs contain extensive provisions governing hearing board procedures and other administrative requirements. These provisions concern issues not required by the Act, such as the frequency of meetings, the fees, and salaries paid to board members; the type of forms that must be filed to petition for a hearing; and requirements for issuing abatement orders. These provisions were mistakenly incorporated into the applicable SIPs and are not requirements under section 110 and Part D of the Act. For this reason, EPA is

proposing to delete the hearing board procedures and other administrative provisions listed in Table 1 from the applicable SIPs for American Samoa, Arizona, California, Hawaii, and Nevada.

#### Fee Provisions

Like the hearing board procedures discussed above, fee provisions which were mistakenly incorporated into the applicable SIPs are not requirements under section 110 and Part D of the Act, and the purposes of these rules have no relationship to these CAA requirements. Only fee provisions that are considered to be economic incentive rules under sections 110(a)(2)(A), 172(c)(6), or 182(g)(4) would appropriately be incorporated into the SIP. For this reason, EPA is proposing to remove the fee provisions listed in Table 1 from the applicable SIPs for American Samoa, Arizona, California, Hawaii, and Nevada.

#### Section 110(k)(6)

#### Section 110(k)(6) of the Act provides:

Whenever the Administrator determines that the Administrator's action approving, disapproving, or promulgating any plan revision (or part thereof), area designation, redesignation, classification, or reclassification was in error, the Administrator may in the same manner as the approval, disapproval, or promulgation revise such action as appropriate without requiring any further submission from the State. Such determination and the basis thereof shall be provided to the State and public.

EPA interprets this provision to authorize the Agency to revise an action when EPA finds that (1) EPA clearly erred in failing to consider, or inappropriately considered, information made available to EPA at the time of the action or the information made available at the time of promulgation is subsequently demonstrated to have been clearly inadequate; and (2) other information persuasively supports a change in the action. See, e.g., 57 FR 56762, 56763 (November 30, 1992) (correcting designations, boundaries, and classifications of ozone, carbon monoxide, particulate matter and lead areas).

#### **EPA Proposed Action**

EPA has reviewed the rules previously incorporated into the American Samoa, Arizona, California, Hawaii, and Nevada SIPs and has determined that the rules summarized in Table 1 were approved in error. These rules include administrative provisions regarding variances, hearing board procedures, and fee provisions.

Therefore, EPA is proposing to delete the rules summarized in Table 1 from these SIPs under section 110(k)(6) of the Act, which gives EPA the authority to revise the existing SIP by removing the referenced rules from the above-referenced SIPs without additional State submission.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

#### **Regulatory Process**

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises and government entities

with jurisdiction over population of less than 50,000.

SIP approvals under sections 110 and 301(a) and subchapter I, Part D of the CAA do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP-approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the Federal-state relationship under the CAA, preparation of a regulatory flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The CAA forbids EPA to base its actions concerning SIPs on such grounds. Union Electric Co. v. U.S. E.P.A., 427 U.S. 246, 256-66 (S. Ct. 1976); 42 U.S.C. 7410 (a)(2).

#### **Unfunded Mandates**

Under Sections 202, 203, and 205 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must undertake various actions in association with proposed or final rules that include a Federal mandate that may result in estimated costs of \$100 million or more to the private sector or to State, local, or tribal governments in the aggregate.

The rules being proposed for removal by this action will not result in the imposition of new requirements.

This action has been classified as a Table 3 action for signature by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225), as revised by a July 10, 1995 memorandum from Mary Nichols, Assistant Administrator for Air and Radiation. The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866 review.

#### List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Hydrocarbons, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401–7671q. Dated: July 11, 1996. Felicia Marcus, *Regional Administrator*.

#### 40 CFR Part 52

[CA 057-0009b; FRL-5527-7]

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, Kern **County Air Pollution Control District, Placer County Air Pollution Control District, Ventura County Air Pollution** Control District, and San Joaquin **Unified Air Pollution Control District** 

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revisions to the California State

Implementation Plan (SIP) which concern the control of volatile organic compound (VOC) emissions from metal parts and products coating, semiconductor manufacturing, petroleum refineries and chemical plants, polyester resin material operations and decontamination of soil.

The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this Federal Register, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct

final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

Approval

**DATES:** Comments on this proposed rule must be received in writing by August 26, 1996.

**ADDRESSES:** Written comments on this action should be addressed to: Daniel A. Meer, Rulemaking Section (A-5-3), Air and Toxics Division, U.S.
