### Titanium Sponge From the Russian Federation: Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Preliminary Results of Antidumping Duty Administrative Review.

**SUMMARY:** In response to requests from Berezniki Titanium-Magnesium Works (AVISMA), RMI Titanium Company (RMI, a U.S. importer of titanium sponge), Interlink Metals and Chemicals, Inc. (Interlink), and Titanium Metals Corporation (TIMET, a petitioner), the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on titanium sponge from the Russian Federation (Russia). This notice of preliminary results covers the period August 1, 1994 through July 31, 1995. This review covers one manufacturer/exporter, AVISMA, and two trading companies, Interlink and Cometals, Inc. (Cometals). The review indicates the existence of dumping margins during this period.

We have preliminarily determined that sales have been made below the normal value (NV). If these preliminary results are adopted in our final results

of administrative review, we will instruct the U.S. Customs Service (Customs) to assess antidumping duties equal to the difference between the United States price (USP) and the NV. Interested parties are invited to comment on these preliminary results. Parties who submit argument in this proceeding are requested to submit with the argument: (1) a statement of the issue; and (2) a brief summary of the argument.

**EFFECTIVE DATE:** July 29, 1996.

**FOR FURTHER INFORMATION CONTACT:** Amy S. Wei or Zev Primor, Office of AD/CVD Enforcement, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-5253.

#### SUPPLEMENTARY INFORMATION:

##### The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended, (the Act) are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Rounds Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

##### Background

The Department published an antidumping finding on titanium sponge from the Union of Soviet Socialist Republics (U.S.S.R.) on August 28, 1968 (33 FR 12138). In December 1991, the U.S.S.R. divided into fifteen independent states. To conform to these changes, the Department changed the original antidumping finding into fifteen findings applicable to the each of the former republics of the U.S.S.R. (57 FR 36070, August 12, 1992).

The Department published a notice of "Opportunity To Request an Administrative Review" of the antidumping duty finding for this review period on August 1, 1995 (60 FR 39150). On August 28, 1995, AVISMA, RMI, and Interlink requested that the Department conduct an administrative review of the antidumping finding on titanium sponge from Russia for one manufacturer/exporter, AVISMA, and one trading company, Interlink, covering the period August 1, 1994 through July 31, 1995. On August 31, 1995, TIMET requested that the Department conduct the same administrative review for AVISMA and

another trading company, Cometals. We initiated the review on September 15, 1995 (60 FR 47930) and on October 12, 1995 (60 FR 53164) (Cometals was inadvertently omitted in the previous initiation notice).

The Department extended the time limit for the deadline for the preliminary results of review because it was not practicable to complete this review within the time limit mandated by Section 751(a)(3)(A) of the Act. See *Titanium Sponge From the Russian Federation; Antidumping Duty Administrative Review; Time Limits*, 61 FR 20795 (May 8, 1996).

The Department is now conducting this administrative review in accordance with section 751 of the Act.

##### Scope of the Review

The product covered by this administrative review is titanium sponge from Russia. Titanium sponge is chiefly used for aerospace vehicles, specifically, in construction of compressor blades and wheels, stator blades, rotors, and other parts in aircraft gas turbine engines. Imports of titanium sponge are currently classifiable under the harmonized tariff schedule (HTS) subheading 8108.10.50.10. The HTS subheading is provided for convenience and U.S. Customs purposes. Our written description of the scope of this proceeding is dispositive.

The period of review (POR) is August 1, 1994 through July 31, 1995, covering one manufacturer/exporter, AVISMA, and two trading companies, Interlink and Cometals.

##### Verification

As provided in section 782(i) of the Act, we verified the information provided by the respondents by using standard verification procedures, including on-site inspection of the manufacturer's facilities, examination of relevant sales and financial records, and selection of original documentation containing relevant information. Our verification results are outlined in the public versions of the verification reports, which are on file in the public file of the Central Records Unit (Room B-099 in the Department of Commerce).

##### United States Price (USP)

##### AVISMA

In its questionnaire response, AVISMA stated that, prior to May 1995, it was not informed at the time of sale of the ultimate destination of merchandise that was sold by its resellers. For this reason, prior to May 1995, AVISMA is not considered to have shipped to the United States.
