**New Mexico; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on February 26, 1996, applicable to all workers of BHP Petroleum (Americas), Inc., Houston, Texas. The notice was published in the Federal Register on March 19, 1996 (61 FR 11,224).

At the request of the company, the Department reviewed the certification for workers of the subject firm. The Department's review of the certification revealed that workers at the subject firm's Midland, Texas, and Farmington, New Mexico, facilities were inadvertently excluded from the certification. Accordingly, the Department is amending the certification to include workers of BHP Petroleum (Americas) Inc., Midland, Texas, and Farmington, New Mexico. The workers were engaged in employment related to the production of crude oil and natural gas.

The intent of the Department's certification is to include all workers of BHP Petroleum (Americas) Inc., Midland, Texas, and Farmington, New Mexico, who were adversely affected by imports.

The amended notice applicable to TA-W-31,900 is hereby issued as follows:

All workers of BHP Petroleum (Americas) Inc., Houston, Texas (TA-W-31,900), and the facility in Midland, Texas (TA-W-31,900A), and the facility in Farmington, New Mexico (TA-W-31,900B), who became totally or partially separated from employment on or after January 24, 1995, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

**Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, TX; Notice of Revised Determination on Reconsideration**

On May 3, 1996, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice was published in the Federal Register on May 24, 1996 (61 FR 26220).

The workers were denied TAA because they did not produce an article within the meaning of Section 222(3) of the Trade Act of 1974, as amended. The workers performed warehouse functions.

New investigation findings on reconsideration shows that in addition to late production warehouse and pre-shipping preparation, the workers were

producing air bags and sensors. The functions at the Brownsville, Texas location were shifted to Mexico. The company is importing the airbags and sensors to the United States from Mexico.

**Conclusion**

After careful consideration of the new facts obtained on reconsideration, it is concluded that the workers of Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, Texas were adversely affected by increased imports of articles like or directly competitive with air bags and sensors produced at the subject firm.

All workers of Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, Texas, who became totally or partially separated from employment on or after March 1, 1995 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.
