NUCLEAR REGULATORY COMMISSION

[Docket Number 40-6659]

Federal Register Notice of Amendment To Change Reclamation Milestone Date in source material license SUA-551 Held by Petrotomics Company for its Shirley Basin, Wyoming Uranium Mill

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Amendment of Source Material License SUA-551 to change a reclamation milestone date.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission has amended Petrotomics Company's (Petrotomics') Source Material License SUA-551 for Shirley Basin Wyoming to change a reclamation milestone date. This amendment was requested by Petrotomics by letter dated May 22, 1996, and its receipt by NRC was noticed in the Federal Register on June 28, 1996.

The license amendment modifies License Condition 50 to change the completion date for a site-reclamation

milestone. The new date approved by the NRC extends completion of placement of final radon barrier on a 9-acre portion of the tailings pile by four years, and two months. Petrotomics justifies the delays for (1) maintaining, throughout the course of reclamation of the site, an area that can be utilized to place contaminated material that may be encountered in accomplishing this work; (2) disposal of the evaporation pond dike material; and (3) allowing continued pumping and maintenance of well 12-DC, located in the southern part of the area, if necessary. Based on the review of Petrotomics' submittal, which indicates the proposed work is scheduled to be completed as expeditiously as practicable, and the fact that the added risk to the public health and safety is not significant, the NRC staff considers Petrotomics' request acceptable.

An environmental assessment is not required since this action is categorically excluded under 10 CFR 51.22(c)(11), and an environmental report from the licensee is not required by 10 CFR 51.60(b)(2).

SUPPLEMENTARY INFORMATION:

Petrotomics' license, including an amended License Condition 50, and the NRC staff's technical evaluation of the amendment request are being made available for public inspection at the NRC's Public Document Room at 2120 L Street, NW (Lower Level), Washington, DC 20555.
