

Number of Respondents: 40 respondents per recall action.

Total Annual Reporting and Recordkeeping Burden: 1,600 hours.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control number for EPA's regulations are displayed in 40 CFR Part 9.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: August 5, 1996.

Elaine E. Stanley,

Director, Office of Compliance, Office of Enforcement and Compliance Assurance.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Requirements for Generators, Transporters, and Waste Management Facilities Under the RCRA Hazardous Waste Manifest System

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Requirements for Generators, Transporters, and Waste Management Facilities Under the RCRA Hazardous Waste Manifest System, ICR No. 801.11, OMB No. 2050-0039. The

ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 11, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 801.11, OMB Control No. 2050-0039.

SUPPLEMENTARY INFORMATION

Title: Requirements for Generators, Transporters, and Waste Management Facilities Under the RCRA Hazardous Waste Manifest System, ICR No. 801.11, OMB No.2050-0039. This request is an extension of a currently approved collection.

Abstract: EPA's authority to require compliance with the manifest system stems primarily from RCRA § 3002(a)(5). This section mandates a hazardous waste manifest system to assure that all hazardous waste generated is designated for and arrives at the appropriate treatment, storage, disposal facility. An essential part of the manifest system is the Uniform Hazardous Waste Manifest (Form 8700-22A). The manifest is a tracking document that accompanies the waste from its generation site to its final disposition. The manifest lists the wastes that are being shipped and the final destination of the waste.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 1, 1996 (61 FR 14303); 8 comments were received.

Burden Statement: The reporting burden per response for this collection of information is estimated to average 25 minutes for generators, 10 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. The record keeping burden per response for this collection of information is estimated to average 6 minutes for generators, 6 minutes for transporters, and 6 minutes for treatment, storage and disposal facilities.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop,

acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Estimated Number of Respondents: 214,395 generators, 500 transporters, 739 TSDFs, and 31 States having manifest programs which collect data from waste handlers.

Frequency of Response: Annual Frequency of Response per Waste Handler is 341 for generators, 5,241 for Transporters, and 3,059 for TSDFs.

Estimated Total Annual Hour Burden: 2,822,873 hours.

Estimated Total Annualized Cost Burden: \$1,292,772.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 801.11 and OMB Control No. 2050-0039 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460.

and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: August 5, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

Agency Information Collection Activities Under OMB Review; NSPS for Automobile and Light Duty Truck Surface Coating Operations (Subpart MM) OMB #2060-0034; EPA #1064.07

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3507(a)(1)(D), this notice announces that the Information Collection Request (ICR) for Standards of Performance for New Stationary Sources—Automobile and Light Duty Truck Surface Coating Operations—Subpart MM) described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 11, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1064.07.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Automobile and Light Duty Truck Surface Coating Operations (Subpart MM) OMB Control No. 2060-0034; EPA ICR No. 1064.07). This is a request for extension of a currently approved collection.

Abstract: Owners/operators of automobile and light duty truck surface coating operations must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test. Monitoring requirements specific to automobile and light duty truck surface coating operations consist of monitoring both VOC emissions and incineration temperatures.

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 56 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the

time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: automobile and light duty truck surface coating operations.

Estimated Number of Respondents: 47.

Frequency of Response: 4.

Estimated Number of Responses: 182.

Estimated Total Annual Hour Burden: 2,635.3 hours.

Estimated Total Annualized Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1064.07 and OMB Control No. 2060-0034 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460.

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: August 6, 1996.

Joseph Retzer,
Director, Regulatory Information Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; "1996 Metal Products and Machinery Industry Phase II Survey"

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that

the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: "1996 Metal Products and Machinery (MP&M) Industry Phase II Survey" (EPA ICR No. 1787.01). The ICR describes the nature of the information collection, the anticipated burden the data collection will create on recipient facilities, and the statistical sampling plan EPA will use to distribute the data collection instruments. The ICR also includes representative copies of the specific data collection instruments that will be distributed to the public.

DATES: Comments and requests for information must be received by EPA no later than September 11, 1996.

ADDRESSES: The public may contact Sandy Farmer at the EPA for a copy of ICR 1787.01. Ms. Farmer may be reached by mail at: U.S. EPA, OPPE Regulatory Information Division (Mail Code 2137), 401 M Street S.W., Washington, DC 20460; or by telephone at (202) 260-2740. The ICR will be available either as hard-copy or as electronic media (e.g., 1.44MB disks).

SUPPLEMENTARY INFORMATION:

Title: Information Collection Request for the 1996 Metal Products and Machinery Industry Phase II Survey (EPA ICR No. 1787.01). This is a new collection.

Abstract: The Metal Products and Machinery (MP&M) Phase II survey is intended to collect, from industry and other affected entities, the type of technical and economic information required by EPA to develop effluent limitations guidelines for MP&M Phase II activities. The MP&M Phase II activities include those operations performed at sites that manufacture, maintain, or repair metal products and machinery included in the following industry categories: motor vehicles (i.e., automotive industry activities—excluding automotive filling stations), bus & truck, railroad, office machines, household equipment, instruments (i.e., measurement and control instruments), precious metals, ships & boats, and other metal products (i.e., previously described as "non-precious" metals). Such entities may be privately owned or may be owned by the federal government or by state/local governments. In addition to the directly affected entities listed above, the EPA also plans to collect information related to the regulatory burden that would be created by implementation of a final MP&M Phase II rule on the state/local governmental authorities responsible for operating the affected publicly owned
