DEPARTMENT OF THE INTERIOR**Bureau of Land Management****43 CFR Part 4100****[WO-330-1020-00-24 1A]****RIN 1004-AB89****Grazing Administration, Exclusive of Alaska; Amendments to the Grazing Regulations; Correction****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Correcting amendments.

SUMMARY: This document contains correcting amendments to the final amendments to the grazing regulations of the Bureau of Land Management, published on February 22, 1995, in the Federal Register [60 FR 9960], and to the pre-existing grazing regulations not affected by the 1995 amendments.

EFFECTIVE DATE: February 5, 1996.**FOR FURTHER INFORMATION CONTACT:** Matthew Reed, 202-452-5069.

SUPPLEMENTARY INFORMATION: The Department of the Interior is making correcting amendments to the final regulations pertaining to livestock grazing published in the Federal Register on February 22, 1995 [60 FR 9960], and to the pre-existing grazing regulations not affected by the 1995 amendments. The following revisions are made as editorial, and not substantive, changes. The changes include correction of erroneous cross-references, removal of an unnecessary and inaccurate paragraph and removal/replacement of several inaccurate or unnecessary acronyms, words and phrases.

The Department of the Interior has determined that, because this rulemaking makes only correcting amendments to the final rulemaking published on February 22, 1995, it is a rule of organization, procedure and practice and does not require notice and an opportunity for public comment pursuant to the Administrative Procedure Act (5 U.S.C. 553(b)(A)). Therefore, these correcting amendments are published as a final rulemaking effective February 5, 1996. The Department of the Interior has determined that this rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. Neither an environmental impact analysis nor a regulatory flexibility

analysis is required. This rulemaking does not contain information collection requirements that require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The principal author of this final rulemaking is Matthew Reed, Regulatory Management Team, Bureau of Land Management.
