Acid Rain Program: Notice of State Acid Rain Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Title IV of the Clean Air Act requires EPA to establish the Acid Rain Program to reduce the adverse environmental and public health effects of acidic deposition. Under titles IV and V of the Act, State and local air permitting authorities develop and administer acid rain programs as part of their title V operating permits programs. The State and local permitting authorities listed in this notice have recently submitted acid rain programs for EPA review that have subsequently been determined to be acceptable to the EPA Administrator as part of their title V operating permits programs. EPA has previously published in the Federal Register lists of other State and local permitting authorities with acceptable acid rain programs; see 60 FR 16127 (March 29, 1995) and 60 FR 52911 (October 11, 1995). This notice is for informational purposes only and does not supplant any other Federal Register notices under title V.

FOR FURTHER INFORMATION CONTACT: Robert Miller, U.S. EPA, Acid Rain Division (6204J), 401 M St., SW., Washington, DC 20460, (202) 233-9077.

SUPPLEMENTARY INFORMATION: In Phase I of the Acid Rain Program (1995 through 1999), EPA issues Phase I acid rain permits and is the permitting authority for certain acid rain affected sources. In Phase II of the Acid Rain Program (beginning in the year 2000 and continuing into perpetuity), State and local permitting authorities are required under titles IV and V of the Act to act as the permitting authority for acid rain affected sources in Phase II and issue acid rain permits as part of their title V operating permits programs. Initial Phase II acid rain permits must be issued to all acid rain affected sources no later than December 31, 1997.
