**Nevada; Temporary Closing of Certain
Public Lands in the Winnemucca
District for the Management of the Fall
1996 Land Speed Record Attempt
Runs**

AGENCY: Bureau of Land Management
(Interior).

ACTION: Temporary closure of certain
Public Lands in Pershing County during
high speed runs conducted by certain
organizations in September, October
and November, 1996. Access and
movement would be temporarily halted
while the high speed vehicles make
their runs with speeds in excess of 100
mph.

SUPPLEMENTARY INFORMATION: Certain
lands in the Winnemucca District,
Pershing County, Nevada, would be
temporarily closed to public access and
movement from one-half hour before to
immediately after high speed runs made
on the playa of the Black Rock Desert.
These runs would be made in an
attempt to break the current land speed
record. Since any movement during
such high speeds have a tendency to
attract the attention of the driver of the
vehicle, for safety considerations all
movement needs to be halted during
these high speed runs. That individual's
attention needs to be focused on the
course and the vehicle. The exact time
of the closures would depend entirely
on when the runs are made. Weather or
mechanical conditions may prevent
them from running every day of their
permit.

The Winnemucca Assistant District
Manager, Nonrenewable Resources, is
the authorized officer for this event,
permit number N2-19-96. These
temporary closures and restrictions are
made pursuant to 43 CFR 8364. The

public lands to be closed are those on the playa of the Black Rock Desert.

The following public lands administered by the BLM restricted or closed are the lands of the playa of the Black Rock Desert within the following townships: T. 33., R. 24 E.; T. 33½ N., R. 24 E.; T. 34 N., R. 24 E.; T. 33 N., R. 25 E.; T. 34 N., R. 25 E.; T. 35 N., R. 25 E.; T. 35½ N., T. 25 E.; T. 34 N., R. 26 E.; T. 35 N., R. 26 E.; T. 35½ N., R. 26 E.

The lands involved are located in the Mount Diablo Meridian and are located northeast and east of Gerlach, Nevada. They are within Pershing County. All graded roads on the edge of the desert but not on the actual playa are not affected by this closure order. A map showing the route of the course is available from the following BLM office: Winnemucca District Office, 5100 East Winnemucca Blvd., Winnemucca, Nevada, 89445, (702) 623-1500.

Any person who fails to comply with this closure order issued under 43 CFR Part 8364 may be subject to the penalties provided for in 43 CFR 8360.7.

FOR FURTHER INFORMATION, CONTACT: Lynn Clemons, 5100 East Winnemucca Blvd., Winnemucca, Nevada, 89445 (702) 623-1500.

National Park Service

Cape Cod National Seashore, Massachusetts; Environmental Assessment: Interim Pheasant Management Program

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability and Public Comment Period for the Environmental Assessment, Interim Pheasant Management.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA 42 USC 4321 *et. seq.*), the National Park Service, Cape Cod National Seashore, announces that an Environmental Assessment (EA) for the Interim Pheasant Management Program is available for public review and comment.

The public comment period is from August 29, 1996 to September 29, 1996. Interested persons may review the document and make written comments to the Superintendent, Cape Cod National Seashore, Headquarters Building, 99 Marconi Site Road, Wellfleet, Massachusetts 02667. Written comments and visits or phone inquiries by interested parties will be accepted.

The EA analyzes the impacts of two alternatives for an interim proposal for the research and management of the Ring-Necked Pheasant (*Phasianus colchicus*) hunting and stocking program at Cape Cod National Seashore. The two alternatives include a no action option which continues current management, and a two year research and evaluation alternative to assess impacts to native resources and provide an objective evaluation of the stocking and hunting program.

Numerous groups interested in the issue of pheasant management have increasingly questioned or requested review or changes as to how the State of Massachusetts and the National Park Service manage the pheasant hunting program. Many hunting interests have

also asked that the program be preserved and allowed to continue within the seashore. Currently, little or no data exist on pheasant survival, population, movement patterns, harvest numbers, and impacts the release may have on the native Seashore ecosystems. Based on this lack of data, the long history of pheasant stocking in the Seashore, and policy questions that require data on which to base informed management decisions, the EA analyzes impacts and provides for public review of the two alternatives to initiate an appropriate research and management program.

Copies of the document are available at the address listed above or by calling Mike Reynolds at (508) 349-3785 x216 at the Seashore Headquarters for copies, questions, or other inquiries.

Dated: August 20, 1996.

Maria Burks,

Superintendent, Cape Cod National Seashore.
