Invitation for Written Scoping Comments: The Commission staff intends to prepare and Environmental Assessment (EA) on this hydroelectric project in accordance with the National Environmental Policy Act. In the EA, we will consider both site-specific and cumulative environmental impacts of the project and reasonable alternatives, and will include an economic, financial, and engineering analyses.

A draft EA will be issued and circulated for review by all interested parties. All comments filed on the draft EA will be analyzed by the staff and considered in a final EA. The staff's conclusions and recommendations will then be presented for consideration by the Commission in reaching its final licensing decision.

Site Visit: A site visit to the proposed Sahko Hydroelectric Project is planned for February 21, 1996. Those who wish to attend should plan to meet at 8:00 am at the J-U-B Engineers, Inc. Twin Falls Office, 800 Falls Ave., Twin Falls, ID. If you plan to attend, contact Mr. Tracy Ahrens by February 19, 1996, at (208) 733-2414 for directions or additional details.

Scoping Meetings: Staff will hold two scoping meetings. A scoping meeting oriented towards the public will be held on Wednesday, February 21, 1996, at 7:00 p.m., at Filer High School, Highway 30, Filer, Idaho. A scoping meeting oriented towards the agencies will be held on Thursday, February 22, 1996, at 9:00 a.m., at the Filer City Hall, Council Chambers, 300 Main Street, Filer, ID 83328.

Interested individuals, organizations, and agencies are invited to attend either or both meetings and assist the staff in identifying the scope of environmental issues that should be analyzed in the EA.

To help focus discussions at the meetings, a scoping document outlining subject areas to be addressed in the EA will be mailed to agencies and interested individuals on the Commission mailing list. Copies of the scoping document will also be available at the scoping meetings.

Objectives: At the scoping meetings the staff will: (1) identify preliminary issues related to the proposed project; (2) identify issues that are not important and do not require detailed analysis; (3) identify reasonable alternatives to be addressed in the EA; (4) solicit from the meeting participants all available information, especially quantified data, on the resource issues; and (5) encourage statements from experts and the public on issues that should be analyzed in the EA, including points of
