## NATIONAL BANKRUPTCY REVIEW COMMISSION

### Meeting

*Agency:* National Bankruptcy Review Commission.

*Action:* Notice of Public Meeting.

*Time and Dates:* Friday, February 23, 1996; 10:00 a.m. to 5:00 p.m.; Saturday, February 24, 1996; 9:00 a.m. to 5:00 p.m. (The meeting is tentatively scheduled to continue Saturday, February 24, 1996. For confirmation of the meeting and meeting time, please contact the office on Friday, February 23, at (202) 273-1813).

*Place:* Thurgood Marshall Federal Judiciary Building, Federal Judicial Center/ Education Center, One Columbus Circle, N.E., Washington, D.C. 20002. The public should enter through the South Lobby entrance of the Thurgood Marshall Federal Judiciary Building.

*Status:* The meeting will be open to the public.

*Matters to be Considered:* General bankruptcy law matters, with an emphasis on the topic of bankruptcy administration, and other substantive areas for future consideration and general administrative matters relating to the organization of the Commission and future meetings and hearings.

*Contact Persons For Further Information:* Contact Jarilyn Dupont or Carmelita Pratt at the National Bankruptcy Review Commission, Thurgood Marshall Federal Judiciary Building, One Columbus Circle,

N.E., Suite G-350, Washington, D.C., (202) 273-1813.

Jarilyn Dupont,

*Executive Director/General Counsel.*

## NATIONAL COMMUNICATIONS SYSTEM

### National Security Telecommunications Advisory Committee

*AGENCY:* National Communications Systems (NCS).

*ACTION:* Notice of meeting.

*SUMMARY:* A meeting of the President's National Security Telecommunications Advisory Committee will be held on Wednesday, February 28, 1996, from 8:30 a.m. to 3:15 p.m. The Business Session will be held at the Department of State, 2101 C Street, NW., Washington, DC. The Executive Session will be held at Old Executive Office Building. The agenda is as follows:

- Call to Order/Welcoming Remarks
- Manager's Report
- Information Assurance Topics
- IES Report of Activities
- Wireless Service Task Force Report
- National Information Infrastructure Task Force Report
- Network Security Group Report
- Information Assurance Task Force Report
- Adjournment

Due to the requirement to discuss classified information, in conjunction with the issues listed above, the meeting will be closed to the public in the interest of National Defense.

**FOR FURTHER INFORMATION CONTACT:** Telephone (703) 607-6221 or write the Manager, National Communications System, 701 S. Court House Rd., Arlington, VA 22204-2198.

Dennis Bodson,

*Chief, Technology and Standards.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-003]

### Consolidated Edison Company of New York Inc. (Indian Point Unit No. 1); Order Approving Decommissioning Plan and Authorizing Decommissioning of Facility

By application dated October 17, 1980, as revised October 13, 1981; July 31, 1986; March 28, 1988; August 10, 1989; March 28 and July 17, 1990; February 5, April 2, July 31, September 20, and October 12, 1993; May 13 and August 11, 1994; and July 19, 1995; Consolidated Edison Company of New York, Inc. (the licensee) requested the U.S. Nuclear Regulatory Commission (the Commission, NRC) to approve its proposed Decommissioning Plan (Plan) for Indian Point Unit No. 1 (IP-1) and an amendment to Provisional Operating License No. DPR-5 and the associated Technical Specifications (TSs) to make them consistent with the Decommissioning Plan. The Decommissioning Plan proposes long-term safe storage (SAFSTOR) of IP-1 spent fuel and residual radioactivity until the adjacent Indian Point Unit No. 2 (IP-2) has been permanently shut down. The licensee must submit a detailed dismantling plan for NRC review and approval prior to major dismantlement activities at IP-1.

Notice of Consideration of Issuance of Amendment and Opportunity for Prior Hearing was published in the Federal Register on December 31, 1985, (50 FR 53407). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has reviewed the application with respect to the provisions of the Commission's rules and regulations and has found that decommissioning as stated in the Plan is consistent with the regulations in 10 CFR Chapter I and will not be inimical to the common defense and security or to the health and safety of the public. The basis for these findings is given in the concurrently issued Safety

Evaluation by the NRC Office of Nuclear Reactor Regulation.

The Decommissioning Plan supplements the IP-1 Safety Analysis Report. Accordingly, a license condition has been added allowing the licensee to make changes to the Decommissioning Plan and Safety Analysis Report after performing a review based upon criteria similar to the criteria of Title 10 of the Code of Federal Regulations (10 CFR 50.59) to ensure that such changes do not involve an unreviewed safety question.

The Commission has prepared an Environmental Assessment and Finding of No Significant Impact for the proposed action. The Commission has determined that the proposed action will not result in any significant environmental impact and that an environmental impact statement need not be prepared. The Notice of Issuance of Environmental Assessment was published in the Federal Register on January 31, 1996.

Accordingly, pursuant to Sections 103, 161b, 161i, and 161o of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.82, the Commission approves the proposed Decommissioning Plan, dated October 17, 1980, as revised, and authorizes decommissioning of the IP-1 facility in accordance with the Decommissioning Plan and the Commission's rules and regulations, subject to the following conditions:

(a)(1) The approved Decommissioning Plan supplements the Final Safety Analysis Report (FSAR) and the licensee may (i) make changes in the facility or procedures as described in the FSAR or the Decommissioning Plan and (ii) conduct tests, or experiments not described in the FSAR or Decommissioning Plan, without prior Commission approval, unless the proposed changes, tests or experiments involve (a) a change in the Technical Specifications (TSs) incorporated in the license or (b) an unreviewed safety question, or (c) major dismantlement activities such as removal of the reactor pressure vessel or other major radioactive components.

(2) A proposed change, test, or experiment shall be deemed to involve an unreviewed safety question (i) if the probability of occurrence or the consequences of an accident or malfunction of equipment important to safety previously evaluated in the FSAR and/or the Decommissioning Plan may be increased or (ii) if the possibility of an accident or malfunction of a different type than evaluated previously in the FSAR and/or the Decommissioning Plan may be created; or (iii) if the margin of

safety as defined in the basis for any TS is reduced.

(b)(1) The licensee shall maintain records of changes in the facility and of changes in procedures made pursuant to this section if these changes constitute changes in the facility or procedures as described in the FSAR or Decommissioning Plan. The licensee shall also maintain records of tests and experiments carried out pursuant to paragraph (a) of this section. These records must include a written safety evaluation that provides the basis for determining that the changes, tests, or experiments do not involve an unreviewed safety question.

(2) The licensee shall annually submit, as specified in 10 CFR 50.4, a report containing a brief description of any changes, tests, and experiments, including summaries of the safety and environmental evaluation of each.

(3) The licensee shall maintain the records of changes in the facility until the date of termination of the license and shall maintain the records of changes in procedures and records of tests and experiments for 3 years.

(c) If the licensee desires (1) a change in the TSs, or (2) to (i) make a change in the facility or the procedures described in the FSAR or Decommissioning Plan, or (ii) conduct tests or experiments that are not described in the FSAR or Decommissioning Plan, and such changes, tests, or experiments involve an unreviewed safety question, a change in the TSs, or major dismantlement activities, the licensee shall submit an application to amend its license pursuant to 10 CFR 50.90.

For further details with respect to this action, see: (1) The licensee's application for authorization to decommission the facility, dated October 17, 1980, as revised; (2) Amendment No. to License No. DPR-5; (3) the related NRC Safety Evaluation; and (4) the NRC Environmental Assessment and Finding of No Significant Impact. These documents are available for public inspection at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and at the White Plains Public Library, 100 Martine Avenue, White Plains, New York.

Dated at Rockville, Maryland, this 31st day of January 1996.

For the Nuclear Regulatory Commission.  
Frank J. Miraglia, Jr.,  
*Acting Director, Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

## **Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: Grant/Cooperative Agreement Provisions.

2. Current OMB approval number: 3150-0107.

3. How often the collection is required: On occasion, one time.

4. Who is required or asked to report: Recipients of NRC grants or cooperative agreements.

5. The number of annual respondents: 216.

6. The number of hours needed annually to complete the requirement or request: 1068.5.

7. Abstract: The Division of Contracts uses provisions, required to obtain or retain a benefit in its awards and cooperative agreements to ensure: adherence to Public Laws, that the Government's rights are protected, that work proceeds on schedule, and that disputes between the Government and the recipient are settled.

Submit by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (lower level), Washington DC.

Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's
