National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects From Bay County, MI, in the Possession of the Michigan State University Museum, Michigan State University, East Lansing, MI

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003(d), of the completion of an inventory of human remains and associated funerary objects in the possession of the Michigan State University Museum, Michigan State University, East Lansing, MI.

A detailed assessment of the human remains was made by Michigan State University Museum professional staff in consultation with representatives of the Saginaw Chippewa Indian Tribe of Michigan.

During 1967-68 and 1970, human remains representing a minimum of 145 individuals were recovered during legally authorized excavations of the Fletcher site by the MSU Museum. Mr. Joseph Fletcher, the owner of the Fletcher site, donated these human remains and associated funerary objects to the MSU Museum during this time. No known individuals were identified. The 65,160 associated funerary objects include glass beads, wampum, silver jewelry, hair ornaments, armbands, animal bones, feathers, cooking utensils, muskets, knives, tomahawks, buttons, woven fabrics, scissors, awls, pipes, tools, tin cones, bells, wood/bark fragments, gorgets, keys, locks, lithics, bottles, leather, projectile points, and fishing spears.

The Fletcher site has been identified as a late 18th century occupation site based on the associated funerary objects and manner of the internments. Historic documents indicate Saginaw Chippewa

settlements in close proximity to this cemetery area during the late 18th century. The location of this site compared to historically documented Saginaw Chippewa village locations, the presence of 18th century village debris in the area, and documented use of this area in the 19th century by the Saginaw Chippewa all indicate cultural affiliation of this cemetery to the Saginaw Chippewa Tribe of Michigan. Oral tradition presented by representatives of the Saginaw Chippewa Indian Tribe indicates this area was a cemetery area used by the band into the historic period.

Based on the above mentioned information, officials of the Michigan State University Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of a minimum of 145 individuals of Native American ancestry. Officials of the Michigan State University Museum have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 65,160 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Michigan State University Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Saginaw Chippewa Indian Tribe of Michigan.

This notice has been sent to officials of the Saginaw Chippewa Indian Tribe of Michigan. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. William A. Lovis, Curator and Professor of Anthropology, MSU Museum, Michigan State University, East Lansing, MI; telephone: (517) 355-2370, before October 9, 1996. Repatriation of the human remains and associated funerary objects to the Saginaw Chippewa Indian Tribe of Michigan may begin after that date if no additional claimants come forward.
