BILLING CODE 3810-FF-P

POSTAL SERVICE**39 CFR Part 111****Classification Reform; Implementation
Standards****AGENCY:** Postal Service.**ACTION:** Final rule.

SUMMARY: This final rule sets forth additional Domestic Mail Manual (DMM) standards adopted by the Postal Service to implement the Decision of the Governors of the United States Postal Service on the Recommended Decision of the Postal Rate Commission on Nonprofit Standard Mail, Nonprofit Enhanced Carrier Route Standard Mail, Nonprofit Periodicals, and Within County Periodicals, Docket No. MC96-2, Classification Reform II.

EFFECTIVE DATE: October 6, 1996.**FOR FURTHER INFORMATION CONTACT:**
Leo F. Raymond, (202) 268-5199.

SUPPLEMENTARY INFORMATION: On April 4, 1996, pursuant to its authority under 39 U.S.C. 3621, *et seq.*, the Postal Service filed with the Postal Rate Commission (PRC) a request for a recommended decision on several mail classification reform proposals for nonprofit Periodicals and Standard Mail (Classification Reform II). The PRC designated the filing as Docket No. MC96-2. On April 11, 1996, the PRC published a notice of the filing, with a description of the Postal Service's proposals, in the Federal Register (61 FR 16129-16146). The PRC issued its Opinion and Recommended Decision on Docket No. MC96-2 on July 19, 1996. In that document, the PRC favorably recommended what the Postal Service had proposed, with the exception of those provisions in the Classroom Periodicals rate schedule; the PRC reopened the record in Docket No. MC96-2 for further proceedings on that category of mail. On August 6, 1996, the Governors of the Postal Service accepted the Recommended Decision and the Board of Governors set October 6, 1996, as the date on which the provisions of Docket No. MC96-2 would take effect. A notice of the Decision of the Governors was published on August 15, 1996 (61 FR 42464-42476).

The DMM standards that were proposed to take effect to implement

Docket No. MC96-2 were published for public comment in the Federal Register on June 24, 1996 (61 FR 32606-32616). Because no comments were received on the proposed rule, it was adopted without change as the final rule, except as noted therein to reflect the absence of rate provisions for Classroom Periodicals in the PRC's Recommended Decision that was accepted and implemented by the Governors, and published on August 15, 1996 (61 FR 42478-42489).

Because the PRC's Recommended Decision, as accepted and implemented by the Governors, excluded rate changes for Classroom Periodicals that had been proposed by the Postal Service, the rate schedule for Classroom Periodicals was unchanged, retaining ZIP+4 Classroom rates. Because of this difference from what the Postal Service had proposed in its request and in the proposed rule, the August 15 final rule also proposed standards for ZIP+4 Classroom rate mail that were different from those published in DMM Issue 50. (In general, the Postal Service proposed to establish eligibility standards for ZIP+4 Classroom rate mail that parallel those for other automation rate Periodicals. Mail preparation standards for ZIP+4 Classroom rate mail would be essentially similar to those for upgradable mail in other classes, except a ZIP+4 code would be required in the address. The Postal Service anticipated minimal adverse impact from this proposal on the mailing community, given the applicability of ZIP+4 rates to only letter-size pieces and the likely absence of a significant volume of letter-size mail in the Classroom Periodicals subclass.) Because those specific standards were not part of the June 24 proposed rule, the Postal Service accepted further comments on those standards from interested parties for an additional 21 days (i.e., through September 5, 1996).

No comments were received on the proposed rule for ZIP+4 Classroom Periodicals rate eligibility and mail preparation. Therefore, the Postal Service adopts the corresponding DMM standards as the final rule.

These relevant standards are shown below for the information of readers, but are the same as the corresponding standards published in the August 15 final rule.

All references to DMM sections shown in this rule are based on DMM Issue 50 (July 1, 1996) as amended by the August 15 final rule.
