existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: Grain elevators. Estimated Number of Respondents: 64.5.

Frequency of Response: On occasion. Estimated Total Annual Hour Burden: 107.1 hours.

Title: NSPS for Petroleum Dry Cleaning Facilities Subpart JJJ (OMB Control No. 2060–0079; EPA ICR No. 0997.05); expiring November 30, 1996. This is a request for renewal of a currently approved information collection request.

Abstract: Owners or operators of petroleum dry cleaning facilities must make the following one-time only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; and the notification of the date of the initial performance test. Owners or operators are also required to maintain records for two years of the occurrence and duration of any startup, shutdown, or malfunction in the operation of the affected facility. The notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. Performance test records are needed to ensure the source's initial capability to comply with the emission standards.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB coltrol numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 11, 1996 (61 FR 29551). No comments were received.

Burden Statement: The annual public recordkeeping and reporting burden for this collection of information is estimated to average 82 hours per response for new dry cleaning facilities. This is a one-time requirement. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information, adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: Petroleum dry cleaners.

Estimated Number of Respondents: 216.

Frequency of Response: On occasion. Estimated Total Annual Hour Burden: 1483 hours.

Send comments on the Agency's need for the information in these collections, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to the appropriate EPA ICR Number and OMB Control Number in any correspondence.

Director, Regulatory Information Division. [FR Doc. 96–25106 Filed 10–1–96; 8:45 am] BILLING CODE 6560–50–P [OPP-66231; FRL 5395-3]

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn by December 31, 1996 orders will be issued cancelling all of these registrations.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305–5761; e-mail:

hollins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be cancelled. The Act further provides that EPA must publish a notice of receipt of any such request in the Federal Register before acting on the request.

II. Intent to Cancel

This Notice announces receipt by the Agency of requests to cancel some 42 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

TABLE 1. — REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
000100 OR-95-0029	Dividend Fungicide	1H-1,2,4-Triazole, 1-((2-(2-chloro-4-(4-chlorophenoxy)phenyl)-4-meth- yl-1,3-
000100 TX-94-0009	Tilt Fungicide	1-((2-(2,4-Dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl)methyl)-1 <i>H</i> - 1,2,4-triazole

III. Loss of Active Ingredients

Unless the requests for cancellation are withdrawn, two pesticide active ingredients will no longer appear in any registered products. Those who are concerned about the potential loss of these active ingredients for pesticidal use are encouraged to work directly with the registrants to explore the possibility of withdrawing their request for cancellation. The active ingredients are listed in the following Table 3, with the EPA Company and CAS Number.

TABLE 3. — ACTIVE INGREDIENTS WHICH WOULD DISAPPEAR AS A RE-SULT OF REGISTRANTS' REQUESTS TO CANCEL

CAS No.	Chemical Name	EPA Com- pany No.
28801–69–6	Tributyltin neodecanoa- te	065020
41096–46–2	Hydroprene	002724

IV. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before December 31, 19960 days after publication.] This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in Federal Register (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, productspecific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

Metolachlor; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Notice.

SUMMARY: EPA has received a specific exemption request from the Arkansas State Plant Board (hereafter referred to as the "Applicant") to use the pesticide metolachlor to treat up to 1,000 acres of spinach to control weeds. The Applicant proposes the use of an
