SUPPLEMENTARY INFORMATION: The 21st Century Corridor Major Investment and Environmental Impact Study (MIS/EIS) was a joint effort to examine future transportation capacity needs in northwestern, western and southern Johnson County, Kansas and northwestern Cass County, Missouri. In 1995, the Johnson County Commission voted to withdraw its support and

sponsorship of the 21st Century Corridor MIS/EIS, after which the Missouri Highway and Transportation Department (now the Missouri Department of Transportation) also withdrew its support and sponsorship. Both project sponsors have directed staff to bring closure to the study effort.

The MIS/EIS documentation compiled to date for the proposed 21st Century Corridor will become a resource document and will not be considered a completed study document. There is agreement that there will be future needs for improved north/south and east/west transportation movement in the subject corridor. Comments and questions concerning this proposed action and the EIS should be directed to the FHWA, Johnson County, or the Kansas Department of Transportation at the addresses provided.
