In addition, the Foundation and HUD will identify best practices among drug-prevention efforts which operate through community-based facilities, as methods public housing authorities can use in support of residents, who must transition from welfare to work.

The KOBAN police and community partnership program is a unique innovative program to improve relationships between local law enforcement agencies and the inner-city neighborhoods they patrol, to reduce crime and drug abuse in the neighborhoods and prevent inner-city youth from engaging in high-risk behavior. The program builds on policing strategies that have operated successfully in Japan and proven successful in other variations in American cities.
