Federal Highway Administration

Environmental Impact Statement: Atlantic and Cape May Counties, NJ

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Atlantic and Cape May Counties, New Jersey.

FOR FURTHER INFORMATION CONTACT: Helene Cook, Division Bridge Engineer, Federal Highway Administration, 840 Bear Tavern Road, Suite 310, West Trenton, NJ 08628.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the New Jersey Department of Transportation

will prepare an environmental impact statement (EIS) on a proposal to improve State Highway Route 52 in Atlantic and Cape May Counties, New Jersey. The proposed improvements would involve the improvement of the Causeway between Ocean City and Somers Point city for a distance of about 3.8 Kilometers (2.1 Miles) including replacement of four bridges (two fixed and two movable) over the waterway. This may also result in the relocation of the Intercoastal Waterway.

Improvements to this highway are considered necessary to provide a safer roadway linking the two cities. Alternatives under consideration include (1) No-Build; (2) replacing the bridges in kind on same alignment; (3) Replacing the bridges with one high level fixed bridge with 18.28 meters (60 feet) vertical under-clearance on an offset alignment; (4) Replacement on the same alignment with higher level movable bridges; (5) construction of high level fixed bridges at the current location of the movable bridges. Incorporated into and studied with various build alternatives will be design variations of grade and alignment.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and Local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A series of public meetings will be held during the development of this document. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be available for public and agency review and comment prior to public hearing. A formal scoping meeting will be conducted before the end of 1996.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.
