

Pursuant to these provisions of the DOE Act, public notice is hereby given that the Secretary delegates and assigns to the Commission the authority to carry out certain functions vested in the Secretary. The assignment is in the form of a delegation.

The Commission, on October 4, 1996, issued an order in FERC Docket No. EL96-74-000 responding to a request from Enron Power Marketing, Inc. (EPMI) for transmission access across transmission facilities of El Paso Electric Company (EPE). In that order, the Commission required EPE to comply with its open access tariff by providing EPMI with transmission service from EPMI's designated points of receipt on EPE's transmission system to EPE's Diablo and Ascarate substations near the United States-Mexico border. The Commission further concluded that the Secretary has the jurisdiction, under section 202(e) of the Federal Power Act (FPA) and under the Executive Orders authorizing issuance of Presidential Permits for construction, operation, maintenance or connection of border facilities, to act on requests for transmission access over the U.S. portion of the lines connecting the Diablo and Ascarate substations in the United States with the Insurgentes and Riverena substations in Mexico.

In its Order No. 888, the Commission required open and comparable transmission access across the transmission lines of public utilities in order to promote competition. The Commission's October 4 order found a gap in the Commission's authority to require open access directly to the border of the United States with Mexico. As a matter of policy, the Department strongly supports the emergence of a more competitive wholesale electricity market and considers open and comparable transmission access a critical factor in creating and sustaining a competitive market, and thus the Department supports the Commission's policy in this area. Because the Commission, under its current jurisdiction, regulates transmission access and the rates, terms and conditions of transmission service for most of the transmission facilities owned by EPE, and to permit uniform implementation of the Commission's open access policy, the Department has concluded that the Commission is the most appropriate agency to address the transmission access and related regulatory issues with respect to the EPE border facilities. Accordingly, the Secretary is delegating to the Commission her authority under the Federal Power Act and Executive Order 10485, as amended by Executive Order

12038, to modify or condition EPE's Presidential Permits for its border facilities (DOE Docket No. PP-48-3 and PP-92) or EPE's authorization to export (DOE Docket No. EA-48-I) or both to provide for third-party access to transmission service over the facilities covered by the Presidential Permits, and to regulate the rates, terms and conditions for such service. Specifically, the delegation order authorizes the Commission to impose terms and conditions, and to issue such supplemental orders, as the Commission deems necessary and appropriate in the following DOE dockets:

El Paso Electric Company

DOE Docket No. PP-48-3—Presidential Permit

DOE Docket No. PP-92—Presidential Permit

DOE Docket No. EA-48-I—Export Authorization

The delegation amends to this limited extent, but does not otherwise rescind or supersede, the Secretary's prior delegation of authority to regulate exports of electricity to the Assistant Secretary for Fossil Energy (DOE Delegation Order No. 0204-127, February 7, 1989), subdelegated to the Director of the Office of Coal and Electricity (Delegation Order dated September 24, 1993).

DOE has issued export authorizations to four entities (other than EPE), including EPMI, that authorize export over EPE's border facilities. Further applications from other parties for authorization to export over these facilities may be received. DOE will retain its jurisdiction over these authorizations, and will consider making modifications, if necessary, to reflect any action taken by the Commission with regard to this matter.

Issued in Washington, D.C. on October 29, 1996.

Hazel R. O'Leary,
Secretary.

Delegation Order No. 0204-163

Pursuant to the authority vested in me as the Secretary of Energy (Secretary) by sections 642 and 402(e) of the Department of Energy Organization Act (Pub. L. 95-91) (DOE Act), there is hereby delegated and assigned to the Federal Energy Regulatory Commission (Commission) the authority to carry out such functions as are vested in the Secretary to regulate access to, and the rates, terms and conditions for, transmission services over facilities owned, controlled or operated by the El Paso Electric Company and covered by

Presidential Permits PP-48-3 and PP-92.

In exercising the authority delegated by this Order the Commission is specifically authorized to modify, revoke, or attach terms and conditions to Presidential Permits PP-48-3 and PP-92 and Export Authorization EA-48-I under Executive Order 10485, as amended by Executive Order 12038, and section 202(e) of the Federal Power Act (FPA) and such other sections of the FPA vested in the Secretary as may be relevant, and to issue such supplemental orders in these dockets, as the Commission finds necessary and appropriate to the public interest. This authority is delegated to the Commission for the sole purpose of authorizing the Commission to take actions necessary, if any, to effectuate open access transmission over the United States portion of the lines connecting the Diablo and Ascarate substations in the United States with the Insurgentes and Riverena substations in Mexico.

The authority delegated to the Commission may be further delegated within the Commission, in whole or in part, as may be appropriate.

All actions taken pursuant to authority delegated prior to this Order or pursuant to any authority delegated by this Order taken prior to and in effect on the date of this Order are hereby confirmed and ratified, and shall remain in full force and effect as if taken under this Order, unless and until rescinded, amended, or superseded.

Nothing in this Order shall preclude the Secretary from exercising or further delegating any of the authority hereby delegated, whenever, in the Secretary's judgment, the exercise or further delegation of such authority is necessary or appropriate to administer the functions vested in the Secretary.

This Order is effective on November 1, 1996.

Hazel R. O'Leary,
Secretary of Energy.

Inventory of Current DOE Reporting and Recordkeeping Requirements

AGENCY: Energy Information Administration, DOE.

ACTION: Department of Energy's inventory of energy information collections, including reporting and recordkeeping requirements.

SUMMARY: The Energy Information Administration (EIA) of the Department of Energy (DOE) herein publishes an inventory of energy information collections (including reporting and recordkeeping requirements) which had Office of Management and Budget (OMB) approval on October 1, 1996, the first day of Fiscal Year (FY) 1997. The inventory is published for the use of respondents and other interested parties. DOE's management and procurement collections are the responsibility of DOE's Assistant Secretary for Human Resources and Administration and are not included in these notices.

The listing that is attached, hereto, includes DOE energy information collections that had OMB approval as of October 1, 1996. For each information collection utilizing a structured form, Part I lists the current DOE control or

form number, the title of the requirement, the OMB control number, and the OMB approval expiration date. Part II lists those information collections which do not utilize structured forms and the corresponding citations from the Code of Federal Regulations.

Consumers Power Company; Notice of Statement Explaining Separate Charge for Non-Physical Title Transfers of Gas

October 28, 1996.

Take notice that on October 1, 1996, Consumers Power Company (Consumers) tendered for filing a statement pursuant to Section 284.123(e) of the Commission's Regulations. Consumers states that, beginning October 1, 1996, it will charge a separate, nominal rate for non-physical gas and title transfers of gas occurring prior to the gas being physically transported under Section 284.224 of the Federal Energy Regulatory Commission's Regulations.

Consumers proposes that those who make a non-physical transfer will, in the month following the transfer, be billed fifty dollars (\$50.00), or such higher amount, if any, determined using the following schedule:

\$0.005/MMBtu for the first 10,000 MMBtu transferred/month
 \$0.004/MMBtu for the next 40,000 MMBtu transferred/month
 \$0.002/MMBtu for all additional MMBtu transferred/month

Consumers indicates that a copy of the filing was served upon the affected state regulatory commission.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 384.214). All such petitions or

protests should be filed on or before November 12, 1996. Protests will be considered by the Commission in determining the appropriate action to be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the Consumers Power Company filing in this matter are on file with the Commission and are available for public inspection.

EnerZ Corporation; Notice of Issuance of Order

October 29, 1996.

EnerZ Corporation (EnerZ) submitted for filing a rate schedule under which EnerZ will engage in wholesale electric power and energy transactions as a marketer. EnerZ also requested waiver of various Commission regulations. In particular, EnerZ requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by EnerZ.

On October 21, 1996, pursuant to delegated authority, the Director, Division of Applications, Office of Electric Power Regulation, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by EnerZ should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C.

20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, EnerZ is authorized to issue securities and assume obligations or liabilities as a guarantor, endorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of EnerZ's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is November 20, 1996. Copies of the full text of the order are available from the Commission's Public Reference Branch, 888 First Street, N.E. Washington, D.C. 20426.
