BILLING CODE 3410-11-M

Rural Utilities Service**Iliamna-Newhalen-Nondalton Electric Cooperative, Inc.; Finding of No Significant Impact**

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS), pursuant to the National Environmental Policy Act of 1969, as amended, the Council on Environmental Quality Regulations (40 CFR parts 1500-1508), and RUS Environmental Policies and Procedures (7 CFR part 1794), has made a finding of no significant impact (FONSI) with respect to a project proposed by Iliamna-Newhalen-Nondalton Electric Cooperative, Inc. (INNEC), of Iliamna, Alaska. The proposed project is a 700 kilowatt hydroelectric generating plant which will be built on the Tazimina River near Iliamna, Newhalen, and Nondalton, Section 24, Range 32 West, Township 3 South, Seward Meridian, in Southcentral Alaska. On January 31, 1995, INNEC filed an application to the Federal Energy Regulatory Commission (FERC) to exempt the Tazimina River Project from the licensing requirements pursuant to Section 2407 of the Energy Policy Act of 1992. The FONSI is based on an environmental assessment (EA) prepared by the FERC. RUS made an independent evaluation of the impacts resulting from the proposed construction and concurs with the scope and content of the EA. In accordance with RUS Environmental Policies and Procedures, 7 CFR Part 1794, Subpart I, Adoption of Environmental Documents, RUS has adopted the FERC EA as its EA for the project.

FOR FURTHER INFORMATION CONTACT:

Lawrence R. Wolfe, Senior Environmental Protection Specialist, RUS, Engineering and Environmental Staff, 1400 Independence Avenue, SW, Stop 1571, Washington, DC 20250-1571, telephone (202) 720-1784.

The project, located near the towns of Iliamna, Newhalen, and Nondalton, Alaska, would provide nearly all

present and near-term future energy demands of these three communities.

Copies of the EA and FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. Brent Petrie, Manager, INNEC, P.O. Box 210, Iliamna, Alaska 99606, telephone (907) 571-1259.

SUPPLEMENTARY INFORMATION: RUS has reviewed the FERC EA and has determined that it represents an accurate assessment of the scope and level of environmental impacts of the proposed project. The FERC EA, which includes input from certain Federal and state agencies, has been adopted by RUS to serve as its EA.

RUS has determined that the FERC EA adequately considered the potential impacts of the proposed project and concluded that approval of RUS financing for the project would not result in a major Federal action significantly affecting the quality of the human environment. RUS determined that the proposed project will either have no effect on wetlands, floodplains, important farmlands, threatened or endangered species, formally classified areas and cultural resources or no significant effect on water quality. RUS has identified no other potential significant impact resulting from construction and operation of the proposed hydroelectric generating plant.

Alternatives examined for the proposed project included the INNEC's proposed project, no action and denial of license by FERC to build the project. RUS determined that the proposed project is an environmentally acceptable alternative that meets INNEC's need with a minimum of adverse environmental impact. RUS has concluded that approval of RUS financing for the project would not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not necessary.

In accordance with their regulations, FERC published a notice and requested comments on the application submitted by INNEC. All comments received were adequately addressed in the FERC EA. The notice published by FERC meets the RUS notice requirements contained in 7 CFR Part 1794.62. On September 14, 1995, FERC issued an order granting exemption from licensing to INNEC to build the proposed project.

Dated: October 28, 1996.

Adam M. Golodner,
Deputy Administrator, Program Operations.

In accordance with sections 353.22(a) and 355.22(a) of the regulations, an interested party as defined by section 353.2(k) may request in writing that the Secretary conduct an administrative review. The Department has changed its requirements for requesting reviews for countervailing duty orders and suspension agreements. Pursuant to 19 CFR 355.22(a) of the regulations, an interested party must specify the individual producers or exporters covered by the order or suspension agreements for which they are requesting a review, (Interim Regulations, 60 FR 25130, 25137 (May 11, 1995)). Therefore, for antidumping and countervailing duty reviews, and suspension agreements, the interested party must specify for which individual producers or exporters covered by an antidumping finding, antidumping or countervailing duty order or suspension agreement it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters. If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin, and
