

present and near-term future energy demands of these three communities.

Copies of the EA and FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. Brent Petrie, Manager, INNEC, P.O. Box 210, Iliamna, Alaska 99606, telephone (907) 571-1259.

SUPPLEMENTARY INFORMATION: RUS has reviewed the FERC EA and has determined that it represents an accurate assessment of the scope and level of environmental impacts of the proposed project. The FERC EA, which includes input from certain Federal and state agencies, has been adopted by RUS to serve as its EA.

RUS has determined that the FERC EA adequately considered the potential impacts of the proposed project and concluded that approval of RUS financing for the project would not result in a major Federal action significantly affecting the quality of the human environment. RUS determined that the proposed project will either have no effect on wetlands, floodplains, important farmlands, threatened or endangered species, formally classified areas and cultural resources or no significant effect on water quality. RUS has identified no other potential significant impact resulting from construction and operation of the proposed hydroelectric generating plant.

Alternatives examined for the proposed project included the INNEC's proposed project, no action and denial of license by FERC to build the project. RUS determined that the proposed project is an environmentally acceptable alternative that meets INNEC's need with a minimum of adverse environmental impact. RUS has concluded that approval of RUS financing for the project would not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not necessary.

In accordance with their regulations, FERC published a notice and requested comments on the application submitted by INNEC. All comments received were adequately addressed in the FERC EA. The notice published by FERC meets the RUS notice requirements contained in 7 CFR Part 1794.62. On September 14, 1995, FERC issued an order granting exemption from licensing to INNEC to build the proposed project.

Dated: October 28, 1996.

In accordance with sections 353.22(a) and 355.22(a) of the regulations, an interested party as defined by section 353.2(k) may request in writing that the Secretary conduct an administrative review. The Department has changed its requirements for requesting reviews for countervailing duty orders and suspension agreements. Pursuant to 19 CFR 355.22(a) of the regulations, an interested party must specify the individual producers or exporters covered by the order or suspension agreements for which they are requesting a review, (Interim Regulations, 60 FR 25130, 25137 (May 11, 1995)). Therefore, for antidumping and countervailing duty reviews, and suspension agreements, the interested party must specify for which individual producers or exporters covered by an antidumping finding, antidumping or countervailing duty order or suspension agreement it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters. If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin, and

each country of origin is subject to a separate order, then the interested party must state specifically, on an order-by-order basis, which exporter(s) the request is intended to cover.

Seven copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, 14th Street & Constitution Avenue, N.W., Washington, D.C. 20230. The Department also asks parties to serve a copy of their requests to the Office of Antidumping/Countervailing Enforcement, Attention: Sheila Forbes, in room 3065 of the main Commerce Building. Further, in accordance with section 353.31(g) or 355.31(g) of the regulations, a copy of each request must be served to every party on the Department's service list.

The Department will publish in the Federal Register a notice of "Initiation of Administration Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation," for requests received by November 30, 1996. If the Department does not receive, by November 30, 1996, a request for review of entries covered by an order, finding, or suspended investigation listed in this notice and for the period identified above, the Department will instruct the Customs Service to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute, but is published as a service to the international trading community.

Dated: October 28, 1996.

Jeffrey P. Bialos,

Principal Deputy Assistant Secretary for Import Administration.
