

any destination in Country Groups T or V, except the People's Republic of China (PRC), Iran and Syria, subject to the provisions of § 771.23 of the EAR and the prohibitions on General License shipments contained in § 771.2(c) of the EAR.

This final rule also makes three editorial corrections to the EAR to correct inconsistencies that appeared in an interim rule titled "Revisions to the Export Administration Regulations: Reform of Computer Export Controls; Establishment of General License G-CTP", which was published in the Federal Register on January 25, 1996 (61 FR 2099). This final rule revises § 771.28(a) by revising the phrase "equipment performing analog-to-digital or digital-to-analog conversions" to read "equipment performing analog-to-digital conversions". This change will conform § 771.28(a) with the controls under ECCN 4A03.e on the CCL. This rule revises §§ 771.28(d)(1) and 776.19(f)(1) by removing "Laos" from the list of countries in Tier 3. Laos appeared in both Tier 2 and Tier 3 in the January 25 rule. With the changes in this rule, Laos will correctly be retained in Tier 2.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect, to the extent permitted by law, the provisions of the EAA and the EAR in Executive Order 12924 of August 19, 1994, and notice of August 15, 1995 (60 FR 42676).

Rulemaking Requirements

1. This final rule has been determined to be not significant for the purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. This rule involves collections of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). These collections have been approved by the Office of Management and Budget under control numbers 0694-0005, 0694-0007, 0694-0010, 0694-0013, and 0694-0073.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by the Administrative

Procedure Act (5 U.S.C. 553) or by any other law, under sections 3(a) of the Regulatory Flexibility Act (5 U.S.C. 603(a) and 604(a)) no initial or final Regulatory Flexibility Analysis has to be or will be prepared.

5. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule.

FEDERAL TRADE COMMISSION**16 CFR Part 305****Rule Concerning Disclosures Regarding Energy Consumption and Water Use of Certain Home Appliances and Other Products Required Under the Energy Policy and Conservation Act ("Appliance Labeling Rule")****AGENCY:** Federal Trade Commission.**ACTION:** Final rule revision.

SUMMARY: The Federal Trade Commission's Appliance Labeling Rule requires that Table 1, in § 305.9, which sets forth the representative average unit energy costs for five residential energy sources, be revised periodically on the basis of updated information provided by the Department of Energy ("DOE").

This document revises the table to incorporate the latest figures for average unit energy costs as published by DOE in the Federal Register on January 19, 1996.¹

DATES: The revisions to § 305.9(a) and Table 1 are effective March 15, 1996. The mandatory dates for using these revised DOE cost figures in connection with the Appliance Labeling Rule are detailed in the Supplementary Information Section, below.

FOR FURTHER INFORMATION CONTACT: James Mills, Attorney, 202-326-3035 Division of Enforcement, Federal Trade Commission, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: On November 19, 1979, the Federal Trade Commission issued a final rule in response to a directive in section 324 of the Energy Policy and Conservation Act ("EPCA"), 42 U.S.C. 6201.² The rule requires the disclosure of energy efficiency, consumption, or cost information on labels and in retail sales catalogs for eight categories of appliances, and mandates that the energy costs, consumption, or efficiency ratings be based on standardized test procedures developed by DOE. The cost information obtained by following the test procedures is derived by using the representative average unit energy costs provided by DOE. Table 1 in § 305.9(a) of the rule sets forth the representative average unit energy costs to be used for

all cost-related requirements of the rule. As stated in § 305.9(b), the Table is to be revised periodically on the basis of updated information provided by DOE.

On January 19, 1996, DOE published the most recent figures for representative average unit energy costs. Accordingly, Table 1 is revised to reflect these latest cost figures as set forth below.

The dates when use of the figures in revised Table 1 becomes mandatory in calculating cost disclosures for use in labeling and catalog sales of products covered by the Commission's rule and/or EPCA are as follows:

For 1996 Submissions of Data Under Section 305.8 of the Commission's Rule: Manufacturers no longer need to use the DOE cost figures in complying with the data submission requirements of section 305.8 of the rule. Pursuant to amendments to the rule published on July 1, 1994³ (with extended compliance dates published on December 8, 1994),⁴ the estimated annual operating cost is no longer the primary energy usage descriptor for refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, and water heaters. Under the amendments, the energy usage and the ranges of comparability for those product categories must be expressed in terms of estimated annual energy consumption (kilowatt-hour use per year for electricity, therms per year for natural gas, or gallons per year for propane and oil). Thus, the 1996 (and all subsequent) data submissions under section 305.8 for these product categories (which are to enable the Commission to publish ranges of comparability) must be made in terms of estimated annual energy consumption, for the determination of which the DOE cost figures are unnecessary. The 1996 (and all subsequent) submissions also must be made in terms of the new product sub-categories created by the above-mentioned amendments. The energy efficiency energy usage descriptors for the other products covered by the rule (room air conditioners, furnaces, boilers, central air conditioners, heat pumps, and pool heaters) are unaffected by the amendments mentioned above. The annual data submission requirements for those products, which are not based on the DOE cost figures, will continue to be in terms of energy efficiency (although submissions for room air conditioners, furnaces, and boilers must be made in terms of the new product sub-categories created by the

amendments). For convenience, the annual dates for data submission are repeated here:

Fluorescent lamp ballasts: March 1
Clothes washers: March 1
Water heaters: May 1
Furnaces: May 1
Room air conditioners: May 1
Pool Heaters: May 1
Dishwashers: June 1
Central air conditioners: July 1
Heat pumps: July 1
Refrigerators: August 1
Refrigerator-freezers: August 1
Freezers: August 1

For Labeling and Catalog Sales of Products Covered by the Commission's Rule: The July 1, 1994, amendments require that labels for refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, water heaters, and room air conditioners contain a secondary energy usage disclosure in terms of an estimated annual operating cost (labels for clothes washers and dishwashers will show two such secondary disclosures—one based on operation with water heated by natural gas, and one on operation with water heated by electricity). The labels must also disclose, below the secondary estimated annual operating cost disclosure, the fact that the estimated annual operating cost is based on the appropriate DOE energy cost figure and identify the year in which the cost figure was published.⁵ Manufacturers of refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, and room air conditioners began making these disclosures on the labels required by the amendments and in catalogs beginning ninety days after the Commission published new energy consumption ranges of comparability based on the 1995 submissions required by § 305.8. They must continue to use the 1995 DOE cost figures until the Commission publishes new ranges of comparability based on future annual submissions of estimated annual energy consumption data. At that time, these manufacturers must use the then-current DOE energy cost figures when they prepare new labels in response to the new energy consumption ranges of comparability. When such new ranges are published, the effective date for

¹ 61 FR 1366.

² 44 FR 66466, since its promulgation, the rule has been amended four times to include new product categories—central air conditioners (52 FR 46888, Dec. 10, 1987), fluorescent lamp ballasts (54 FR 1182, Jan. 12, 1989), certain plumbing products (58 FR 54955, Oct. 25, 1993), and certain lamp products (59 FR 25176, May 13, 1994). Obligations under the rule concerning fluorescent lamp ballasts, lighting products, and plumbing products are not affected by the cost figures in this notice.

³ 59 FR 34014.

⁴ 59 FR 63688.

⁵ The secondary estimated annual operating cost disclosures on the initial group of revised labels for storage-type water heaters are based on the 1994 DOE cost figures that were published by the Commission on February 8, 1994 (59 FR 5699). The secondary estimated annual operating cost disclosures on the initial group of revised labels for refrigerators, refrigerator-freezers, clothes washers, dishwashers, and room air conditioners are (or will be) based on the 1995 DOE cost figures that were published by the Commission on February 17, 1995 (60 FR 9295).

labeling new products will be ninety days after the publication of the ranges in the Federal Register. Similarly, manufacturers of storage-type water heaters, who began to comply with the amendments in 1994, used the 1994 DOE cost figures in determining the secondary energy use disclosures on the labels on their products. They must continue to use 1994 cost figures to calculate these estimated annual operating cost figures on their labels until the Commission publishes new ranges of comparability for those products. As in the past, products that have been properly labeled prior to the

effective date of any range modification need not be relabeled.

For Energy Cost Representations Respecting Products Covered by EPCA but not by the Commission's Rule: Manufacturers of products covered by section 323(c) of EPCA, 42 U.S.C. 6293(c), but not by the Appliance Labeling Rule (clothes dryers, television sets, kitchen ranges and ovens, and space heaters) must use the 1996 representative average unit costs for energy in all operating cost representations beginning May 14, 1996.

PART 305—[AMENDED]

Accordingly, 16 CFR Part 305 is amended as follows:

1. The authority citation for Part 305 continues to read as follows:

Authority: 42 U.S.C. 6294.

Section 305.9(a) is revised to read as follows:

§ 305.9 Representative average unit energy costs.

(a) Table 1, below, contains the representative unit energy costs to be utilized for all requirements of this part.

TABLE 1.—REPRESENTATIVE AVERAGE UNIT COSTS OF ENERGY FOR FIVE RESIDENTIAL ENERGY SOURCES (1996)

Type of energy	In commonly used terms	As required by DOE test procedure	Dollars per million Btu ¹
Electricity	8.6¢/kWh ^{2,3}	\$0.086/kWh	\$25.21
Natural Gas	62.6¢/therm ⁴ or \$6.43/MCF ^{5,6}	0.000006626/Btu	6.26
No. 2 heating oil92/gallon ⁷	0.00000663/Btu	6.63
Propane	0.90/gallon ⁸	0.00000984/Btu	9.84
Kerosene	1.00/gallon ⁹	0.00000739/Btu	7.39

¹ Btu stands for British thermal unit.

² kWh stands for kilowatt hour.

³ 1 kWh=3,412 Btu.

⁴ 1 therm=100,000 Btu. Natural gas prices include taxes.

⁵ MCF stands for 1,000 cubic feet.

⁶ For the purposes of this table, 1 cubic foot of natural gas has an energy equivalence of 1,027 Btu.

⁷ For the purposes of this table, 1 gallon of No. 2 heating oil has an energy equivalence of 138,690 Btu.

⁸ For the purposes of this table, 1 gallon of liquid propane has an energy equivalence of 91,333 Btu.

⁹ For the purposes of this table, 1 gallon of kerosene has an energy equivalence of 135,000 Btu.

Coast Guard

33 CFR Part 100

[CGD 09-95-029]

Special Local Regulations; Great Lakes Annual Marine Events

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is revising its list of annual marine events which occur within the Ninth Coast Guard District. Publication of this list in part 100 of the Code of Federal Regulations will establish permanent special local regulations for marine events within the Ninth Coast Guard District which recur on an annual basis and which have been determined by the District Commander to require the issuance of special local regulations. This action is being taken to

ensure the safety of life, limb and property during each event, while avoiding the necessity of publishing a separate temporary regulation each year for each event. The list reflects the approximate dates and locations of each annual marine event.

DATE: This rule is effective February 14, 1996.

FOR FURTHER INFORMATION CONTACT: Marine Science Technician Second Class Jeffrey M. Yunker, Ninth Coast Guard District, Aids to Navigation Branch, 1240 East Ninth Street, Cleveland, Ohio, 44199-2060, (216) 522-3990.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of these regulations are Lieutenant Junior Grade Byron D. Willeford, Project Officer, Ninth Coast Guard District, Aids to Navigation Branch and Lieutenant Commander Michael Zack, Project Attorney, Ninth Coast Guard District Legal Office.

Regulatory History

On November 1, 1995, the Coast Guard published a notice of proposed

rulemaking entitled Special Local Regulations; Great Lakes Annual Marine Events in the Federal Register (60 FR 55511). The deadline for the submission of comments was December 18, 1995. The Coast Guard received no letters commenting on the proposal. A public hearing was not requested and one was not held. The Commander Ninth Coast Guard District has decided to publish the final rule as proposed.

Background and Purpose

This rulemaking updates an existing list of anticipated annual events. Each year various public and private organizations sponsor marine events on the navigable waters of the United States within the Ninth Coast Guard District. These events include slow moving boat parades, sailboat races, high speed hydroplane races, fireworks displays, and other water related events. The listed events are held in approximately the same location during the same general period of time each year. Exact times and dates will be published in the Local Notice to Mariners instead of being published in this final rule. This will streamline the marine event process for those regattas
