SUPPLEMENTARY INFORMATION:

I. Background

The Food Quality Protection Act (FQPA), signed into law on August 3, 1996, (Public Law 104-170) amends the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA) to provide greater protection for U.S. consumers, particularly infants and children.

EPA formed the FSAC as a subcommittee under the auspices of the National Advisory Council for Environmental Policy and Technology (NACEPT) to provide a structured environment for exchange of information and ideas on regulatory, policy, and implementation issues. These discussions will assist EPA in the implementation of the new food safety statute and are essential if EPA is to be responsive to the needs of the public and the affected industry.

II. Participation

The FSAC is composed of a balanced group of participants from the following sectors: pesticide user and commodity groups; environmental/public interest groups, including the general public;

federal and state governments; academia; industry; the public health community; and congressional offices.

FSAC meetings are open to the public. Outside statements by observers are welcome. Oral statements will be limited to five minutes, and it is preferred that only one person per organization present the statement. Any person who wishes to file a written statement can do so before or after an FSAC meeting. These statements will become part of the permanent file and will be provided to FSAC members for their information.

Materials related to the Food Safety Advisory Committee are maintained in a public record. These materials are available for inspection from 8 a.m. to 4 p.m. Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

III. Meeting Schedule

The agenda will include: Use of a 10-fold safety factor to protect children and infants; consideration of in-utero exposure for carcinogenicity studies; tolerance reassessment, worker risk issues, EPA's decision logic for risk management and risk assessment, and presentation of USDA programs.

A fourth meeting is tentatively planned for December 4, 1996. Meeting location and agenda topics will be published prior to the meeting. To receive an agenda for this (November 14-15) meeting please write or call Margie Fehrenbach at the address or number listed under FOR FURTHER INFORMATION CONTACT.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Pesticide Data Submitters List is a compilation of names and addresses of registrants who wish to be notified and offered compensation for use of their data. It was developed to assist pesticide applicants in fulfilling their obligation as required by sections 3(c)(1)(f) and 3(c)(2)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and 40 CFR part 152 subpart E regarding ownership of data used to support registration. This notice announces the availability of an updated version of the Pesticide Data Submitters List which supersedes and replaces all previous versions.

II. Ordering Information

Microfiche copies of the document are available from the National Technical Information Service (NTIS) ATTN: Order Desk 5285 Port Royal Road Springfield, VA 22161; telephone: (703) 487-4650. When requesting a document from NTIS, please provide its name and NTIS Publication Number (PB). The NTIS Publication for this version of the Pesticide Data Submitters List is PB96-210430.

III. Electronic Access

The Pesticide Data Submitters List is available on EPA's gopher server and two other pathways on the Internet. The Internet address of EPA's gopher server is gopher://gopher.epa.gov. This information also is available using file transfer protocol (ftp) on ftp.epa.gov or using the world wide web (www) Internet address on http://www.epa.gov.

The Pesticide Data Submitters List is also available on the Pesticides Special Review and Reregistration Information System Bulletin Board System. This Bulletin Board System (BBS) is a computer set up to accept calls from over a telephone line and allow callers to use the computer. Anyone with a computer or terminal connected to a phone line or networked to one can dial into the BBS and perform the functions it is set up to allow.

The telephone number of this bulletin board is (703) 308-7224. To connect to this or any other BBS, several parameters in your communication software must be set appropriately. The settings for this BBS are the standard settings for most: 8 data bits, no parity, and 1 stop bit (abbreviated as 8N1). Communication speeds from 2400 bps to 28.8K bps are available, accommodating almost all speeds available in modems on the market today. The system displays color ANSI graphics as well as ASCII text.

IV. From the Internet

The Pesticide Special Review and Reregistration Information System can be accessed via GSA's Fedworld System. Telnet or ftp to fedworld.gov and follow the onscreen instructions to get to the gateway.

V. From a LAN

Many Local Area Networks (LANs) are connected to the telephone network. While it is not possible to address the multitude of possible configurations here, your network administrator will be able to tell you if you are able to dial out to other systems from your LAN and what specific software you have available to do this.
