**[Docket No. CP97-54-000]**

**Florida Gas Transmission Company; Notice of Application**

November 15, 1996.

Take notice that on October 21, 1996, as supplemented on November 8, 1996, Florida Gas Transmission Company (FGT), P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP97-54-000 an application pursuant to Section 7(b) of the Natural Gas Act and Part 157 of the Federal Energy Regulatory Commission's Regulations for permission and approval to abandon

by sale to Southern Natural Gas Company (Southern) FGT's ownership interest in certain pipeline, measurement and appurtenant facilities know as Cognac Pipeline located just off the Louisiana Gulf Coast in the Outer Continental Shelf, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

FGT states that the Cognac Pipeline was originally constructed to deliver reserves from Mississippi Canyon Blocks 150, 151, 194, and 195 in the offshore Louisiana area. The Cognac Pipeline Consists of: (1) 26.3 miles of 16-inch pipeline extending from the platform in Block 194 to the South Pass in Plaquemines Parish, Louisiana; (2) 13.4 miles of 18-inch pipeline extending from the South Pass in Plaquemines Parish to a point of interconnection with Southern's existing 14-inch Romere Pass Pipeline, Plaquemines Parish, Louisiana; (3) .3 miles of 14-inch Pipeline from the Block 194 platform riser; and (4) a receiving station consisting of measurement facilities and certain related and appurtenant facilities.

FGT seeks to abandon by sale its 25.29502% interest in the Cognac Pipeline to Southern, which will acquire FGT's interest under its Part 157 Subpart F Blanket Construction Certificate upon Commission approval to abandon these facilities. FGT states that the sales price for the facilities to be conveyed to Southern is \$137,000, which will be a net gain since the facilities are fully depreciated. FGT proposes to sell its interest in the Cognac Pipeline because the purchase gas contract in the offshore Louisiana area has been terminated and the Cognac Pipeline is a non-contiguous lateral off the FGT system.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 6, 1996, file with the Federal Energy Regulatory Commission (888 First Street, N.E., Washington, D.C. 20426) a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for FGT to appear or be represented at the hearing.
