Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 95-AEA-17]

Proposed Amendment of Class D Airspace; Utica, NY, and Proposed Amendment of Class D Airspace and Class E4 Airspace, Rome, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would modify Class D airspace designated as a surface area for Oneida County Airport, Utica, New York and Griffiss AFB,

Rome, New York. There is existing Class D airspace for each location. This proposal would redefine the boundaries of each area, and reduce the amount of Class D airspace located to the east of these airports. The associated Class E4 airspace areas, at Griffiss AFB, designated as an extension to a Class D surface area, would also be modified and made effective only at the times the Griffiss AFB tower is operating. The actual use of the Class D airspace, by each airport, is based on the geographic division provided by the New York State Barge Canal; the modification would reflect this division.

DATES: Comments must be received on or before March 15, 1996.

ADDRESSES: Send comments on the rule in triplicate to: Manager, System Management Branch, AEA-530, Docket No. 95-AEA-17, F.A.A. Eastern Region, Federal Building #111, John F. Kennedy Int'l Airport, Jamaica, NY 11430.

The official docket may be examined in the Office of the Assistant Chief Counsel, AEA-7, F.A.A. Eastern Region, Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430.

An informal docket may also be examined during normal business hours in the System Management Branch, AEA-530, F.A.A. Eastern Region, Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430.

FOR FURTHER INFORMATION CONTACT: Mr. Francis T. Jordan, Jr., Airspace Specialist, System Management Branch, AEA-530, F.A.A. Eastern Region, Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 553-4521.

Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, environmental, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made:

"Comments to Airspace Docket No. 95-AEA-17". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments received will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with the FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the System Management Branch, Air Traffic Division, AEA-530, F.A.A. Eastern Region, Federal Building #111, John F. Kennedy International Airport, Jamaica, NY 11430. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71). This proposed rule would modify the Class D airspace at Oneida County Airport, Utica, NY to designate the surface airspace that is actually utilized for the Oneida County Airport when the tower is in operation. This proposed rule would modify the Class D airspace and associated Class E4 airspace designated as an extension to a Class D surface area at Griffiss AFB. The air traffic control tower is no longer operating 24 hours a day at Griffiss AFB, and a "by NOTAM" clause would be added to the Class D and Class E4 airspace descriptions. This would result in the airport having surface controlled airspace, Class D, for a period of time; then reverting to uncontrolled Class G airspace under a 700 foot Class E5 airspace area. The weather observations are only available during those same hours as the control tower operates. Class D and Class E4 airspace designations are published in Paragraph 5000 and 6004, respectively, of FAA Order 7400.9C, dated August 17, 1995 and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document

would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal.

Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposal

The FAA is considering amending part 71 of the Federal Aviation Regulations (14 CFR part 71) by modifying the Class E5 airspace at both Griffiss AFB and Oneida County Airport. This proposal would provide a Class E5 airspace description for each airport. The proposed modifications would accommodate SIAPs and instrument flight rules (IFR) operations at Oneida County Airport and provide additional controlled airspace for vectoring of aircraft. In addition, airspace efficiency would be enhanced by establishing additional controlled airspace at 700 feet above ground level on the northwest side of Griffiss AFB between 8.7 and 15 miles. Class E5 airspace areas extending upward from 700 feet or more above the earth are published in Paragraph 6005 of FAA Order 7400.9C, dated August 17, 1995 and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is routine matter that would
