On November 17, 1995, in Order EA-104, APS was authorized to export electric energy to Mexico through the facilities of San Diego Gas and Electric Company. The energy to be exported was designated economy energy. By this application APS seeks a more broad authorization to include firm energy, if available.

In a related matter, on October 29, 1996, the Secretary of Energy signed Delegation Order No. 0204-163, which delegated and assigned to the Federal Energy Regulatory Commission (FERC) authority to carry out such functions vested in the Secretary to regulate access to, and the rates, terms and conditions for, transmission services over the facilities of the El Paso Electric Company (EPE). This authority was delegated to FERC for the sole purpose of authorizing FERC to take any actions necessary to effectuate open access transmission over the United States portion of EPE's electric transmission lines connecting the Diablo and Ascarate substations in the United States with the Insurgentes and Riverena substations in Mexico. Notice and a copy of the Delegation Order were published in the Federal Register on November 1st at 61 FR 56525.

In its application, APS also requested authority to transmit electric energy to CFE through a San Diego Gas & Electric Company (SDG&E) owned 69-kV transmission line authorized in PP-49. On February 1, 1996, in Order PP-49-1, DOE amended the previously issued Presidential permit by authorizing SDG&E to remove the cross-border span and retain the U.S. portion of the facilities for domestic purposes to help increase reliability of service to regional customers in the U.S.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969 (NEPA), and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, DC on November 21, 1996.
