**21. Consolidated Edison Company of New York, Inc.**

[Docket No. ER96-977-000]

Take notice that on January 30, 1996, Consolidated Edison Company of New York, Inc. (Con Edison), tendered for filing proposed supplements to its Rate Schedules FERC No. 92 and FERC No. 96.

The proposed supplement No. 7 to Rate Schedule FERC No. 96 decreases

the rates and charges for electric delivery service furnished to public customers of the New York Power Authority (NYPA) by \$2,462,000 annually based on the 12-month period ending March 31, 1997.

The proposed supplement No. 6 to Rate Schedule FERC No. 96, applicable to electric delivery service to NYPA's non-public, economic development customers, and the proposed supplement No. 4 to Rate Schedule FERC No. 92, applicable to electric delivery service to commercial and industrial economic development customers of the County of Westchester Public Service Agency (COWPUSA) or the New York City Public Utility Service (NYCPUS), decrease the rates and charges for the service by \$146,000 annually based on the 12-month period ending March 31, 1997.

The proposed decreases are a part of a Company-wide general electric rate change application which Con Edison filed to implement rates for the second year of a multi-year rate plan previously approved by the New York Public Service Commission (NYPSC) and which is pending before the NYPSC.

Although the proposed supplements bear a nominal effective date of April 1, 1996, Con Edison will not seek permission to make these effective until the effective date, estimated to be April 1, 1996, of the rate changes, if any, authorized by the NYPSC.

A copy of this filing has been served on NYPA, COWPUSA, NYCPUS, and the New York Public Service Commission.

**[Project No. 2232-303; North Carolina and South Carolina]**

**Duke Power Company; Notice of Availability of Environmental Assessment**

February 12, 1996.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) reviewed Duke Power Company's Revised Shoreline Management Plan for the Catawba-Wateree Hydroelectric Project located on the Catawba-Wateree River in North and South Carolina. The Plan addresses 1,635 miles of shoreline area for 11 reservoirs, focusing primarily on land use classification, recreational shoreline uses, boating access, and shoreline aesthetics. The 11 reservoirs, in order from north to south, are:

North Carolina	South Carolina
1. Lake James .....	7. Lake Wylie.
2. Lake Rhodhiss .....	8. Fishing Creek Lake.
3. Lake Hickory .....	9. Great Falls Lake.
4. Lookout Shoals Lake.	10. Rocky Creek Lake.
5. Lake Norman .....	11. Lake Wateree.
6. Mountain Island Lake..	

In the Plan, the licensee proposes certain land uses at the 11 project reservoirs: commercial/non-residential; commercial/residential; residential; recreational; project operations; natural areas; and environmental areas.

In developing the Plan, the licensee evaluated and classified existing and future shoreline and lake use at the 11 reservoirs. The projected use levels are based on the classification of existing shoreline development and the results of a boating and lake use study.

The staff prepared an Environmental Assessment (EA) for the proposed plan and concluded that the effects on environmental resources would be nonsignificant if our recommendations are implemented, and the recreational opportunities at the project would be enhanced with additional facilities. On the basis of the independent environmental assessment, approval of the Plan would not constitute a major

federal action that would significantly affect the quality of the environment.

Copies of the EA are available for review in the Reference and Information Center, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

The Sequoia Ranch Project is located on the Middle Fork of the Tule River in Tulare County, California. The exemptee is applying for a surrender of the exemption because the project is not economically viable. An Environmental Assessment (EA) was prepared for the application. **ACTION:** Proposed determination with request for comments and notice of opportunity for public hearing.

**SUMMARY:** The EPA has made two proposed determinations that reductions in expenditures of non-Federal funds for the Bay Area Air Quality Management District (BAAQMD) in San Francisco, California are a result of non-selective reductions in expenditures. These determinations, when final, will permit the BAAQMD to keep the financial assistance awarded to it by EPA for FY-95 and to be awarded financial assistance for FY-96 by EPA under section 105(c) of the Clean Air Act (CAA).

**DATES:** Comments and/or requests for a public hearing must be received by EPA at the address stated below by March 18, 1996.

**ADDRESSES:** All comments and/or requests for a public hearing should be mailed to: Valerie Cooper, Air Grants Section (A-2-3), Air and Toxics Division, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, California 94105-3901; FAX (415)744-1072.

**SUPPLEMENTARY INFORMATION:** Under the authority of Section 105 of the CAA, EPA provides financial assistance to the BAAQMD, whose jurisdiction includes Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, and part of Solano and Sonoma Counties in California, to aid in the operation of its air pollution control programs. In FY'94, EPA awarded the BAAQMD \$1,608,900 which represented approximately 5% of the BAAQMD's budget, and in FY'95
