Advanced Television Systems and Their Impact on the Existing Television Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of time.

SUMMARY: The Commission is extending the time for filing reply comments relating to the *Sixth Further Notice of Proposed Rule Making* in this proceeding until January 10, 1997. The Commission also indicates that it will accept late-filed comments for a reasonable period of time after the November 22, 1996, due date for comments. This action will allow the development of a complete record on the matter of channel allotments for operation of digital TV service.

DATES: Comments received after the original November 22, 1996, due date will be accepted for a reasonable period of time; reply comments must be received on or before January 10, 1997.

ADDRESSES: Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554.

SUPPLEMENTARY INFORMATION:

1. On July 25, 1996, the Commission adopted a *Sixth Further Notice of Proposed Rule Making (Sixth FNPRM)* in MM Docket No. 87-268, 61 FR 43209, August 21, 1996, that proposed policies for developing the initial channel allotments for digital TV (DTV) service, proposed procedures for assigning DTV allotments, and plans for spectrum recovery. The *Sixth FNPRM* also contains a draft DTV Table of Allotments. Comments and reply comments responding to the *Sixth FNPRM* were due November 22, 1996, and December 23, 1996, respectively.

2. On November 13, 1996, Cohen, Dippell and Everist (CDE), a consulting engineering firm, submitted a request seeking to extend the dates for filing comments and reply comments in response to the *Sixth FNPRM*. It asks that the comment and reply dates be extended 60 days. CDE argues that this additional time is needed to study the multiple technical issues related to DTV operation, including propagation, protection ratios to and from other radio services, out-of band emissions, use of channel 6, alternative allotment possibilities, etc. that are addressed in the *Sixth FNPRM*.

3. A number of parties representing broadcast interests, including ABC, ALTV, APTS, CBS, Chris Craft, MSTV, NAB, NBC PBS, and Tribune (Broadcasters) submitted a joint opposition to CDE's request for an extension of time. Broadcasters submit that it is important that the Commission adopt a DTV Table as soon as possible. They argue this is the only way to ensure that the long-awaited DTV service is licensed in the very near future. They observe that the DTV transmission standard and planning factors used to allot and assign DTV channels have been under study for nine years. Broadcasters further state, however, that they recognize the importance of providing an opportunity to fully study and to comment meaningfully on the *Sixth FNPRM*. They therefore urge that instead of extending the time in which to file all comments, the Commission should: (1) accept late filed comments for a reasonable period time, and (2) extend the time for filing reply comments to January 10, 1997. Broadcasters submit that, with the approach of the holiday season, this approach should give all parties an
