BILLING CODE 4510-30-M

Iowa Assemblies, Inc., Lucas, Iowa; Amended Certification Regarding Eligibility To Apply for NAFTA Transitional Adjustment Assistance

[NAFTA-00303]

NAFTA-00303A Mt. Ayr, NAFTA-00303B Osceola

NAFTA-00303C Murray, NAFTA-00303D Lamoni

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 USC 2273), the Department of Labor issued a Notice of Certification of Eligibility to Apply for NAFTA Transitional Adjustment Assistance on January 12, 1995, applicable to all workers at Iowa Assemblies, Inc. in Lucas, Mt. Ayr and Osceola, Iowa. The certification was amended on December 5, 1995, to include workers of Iowa Assemblies in Murray, Iowa.

At the request of the State Agency, the Department reviewed the subject certification. The company reports that worker separations will occur at the Iowa Assemblies automotive wiring harnesses and wiring assembly plant in Lamoni, Iowa. Accordingly, the Department is amending the certification to include these workers.

The intent of the Department's certification is to include all workers of Iowa Assemblies, Inc. adversely affected by increased imports of wiring

harnesses and assembly from Mexico or Canada.

The amended notice applicable to NAFTA-00303 is hereby issued as follows:

"All workers of Iowa Assemblies, Inc., Lucas (NAFTA-00303), Mt. Ayr (NAFTA-00303A), Osceola (NAFTA-00303B), Murray (NAFTA-00303C), and Lamoni, Iowa (NAFTA-00303D) engaged in employment related to the production of wiring harnesses and assembly who became totally or partially separated from employment on or after December 8, 1993 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed at Washington DC this 31st day of January 1996.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements; Office of Management and Budget Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection.

SUMMARY: The Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for collection of information under the provision of the Paperwork Reduction Act (44 U.S.C. Chapter 35):

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* 10 CFR Parts 20, 30, 40, 61, 70, and 72, Termination or Transfer of Licensed Activities: Recordkeeping Requirements.

3. *The form number if applicable:* Not applicable.

4. *How often is the collection required:* A one-time transfer of records pertaining to decommissioning, offsite releases, and waste disposal to the responsible licensee when licensed activities are transferred or assigned to another licensee, in accordance with the terms of the license. A one-time forwarding of records pertaining to decommissioning, offsite releases, and waste disposal to the cognizant regulatory body once a license is terminated. There will also be a one-time forwarding of records concerning low-level waste facilities to the disposal site owner once the facility is closed

and the license transferred to the disposal site owner, and a one-time forwarding of records to the cognizant regulatory body and the party responsible for institutional control of the site once that body terminates the license.

5. *Who will be required or asked to report:* Part 30, 40, 61, 70 and 72 NRC and Agreement State licensees who are transferring, assigning, or terminating their licenses.

6. *An estimate of the number of responses:* 962.

7. *The estimated number of annual respondents:* 962 per year.

8. *An estimate of the number of hours needed annually to complete the requirement or request:* 4,999 hours for all 962 licensees affected by the rule or an average of 5.2 hours per licensee.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Applicable.

10. *Abstract:* The Nuclear Regulatory Commission (NRC) is amending its regulations pertaining to the disposition of certain records when a licensee terminates licensed activities or licensed activities are transferred to another licensee. The final rule requires a licensee to transfer records pertaining to decommissioning, and certain records pertaining to offsite releases and waste disposal, to the new licensee if licensed activities will continue at the same site, and it requires all affected licensees to forward these records to the NRC when a license is terminated.

Submit by March 22, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC 20555-0001. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The

document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions should be directed to the OMB reviewer by March 22, 1996: Troy Hillier, Office of Information and Regulatory Affairs, (3150-0014, 3150-0017, 3150-0020, 3150-0009, and 3150-0132, 3150-0135), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda J. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 14th day of February, 1996.

For the Nuclear Regulatory Commission.
Gerald F. Cranford,
Designated Senior Official for Information Resources Management.

BILLING CODE 7590-01-P

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corporation and Vermont Yankee Nuclear Power Station; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering approval of a procedure for on site disposal of silt containing low levels of radioactivity at the Vermont Yankee Nuclear Power Station (VYNPS), pursuant to 10 CFR 20.2002, as requested by the Vermont Yankee Nuclear Power Corporation, (the licensee). VYNPS is located in Windham County, Vermont.

Environmental Assessment

Identification of the Proposed Action

The proposed action would authorize the on site relocation of silt containing low levels of radioactivity which was or will be removed from the cooling tower basins at VYNPS.

The proposed action is in accordance with the licensee's application dated August 30, 1995.

The Need for the Proposed Action

The proposed action will eliminate the need to hold the material for future disposal in a 10 CFR Part 61 licensed facility and will save space at licensed facilities for waste materials containing higher levels of activity. It will also save substantial cost.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the proposed action will minimize the risk of unexpected exposure. The licensee's proposal was evaluated against the staff's guidelines for on site disposal and found to be acceptable. The potential exposure to members of the general public from the radionuclides in the silt was determined to be less than 1 mrem/year. The potential exposure to an inadvertent intruder following licensee release of the disposal site was determined to be less than 5 mrem/year. The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational radiation exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does involve features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded there is no significant environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Vermont Yankee Nuclear Power Station, dated July 1972.

Agencies and Persons Consulted

In accordance with its stated policy, on December 21, 1995, the staff consulted with the Vermont State official, Mr. William Sherman of the Vermont Department of Public Service, regarding the environmental impact of

the proposed action. The State official questioned the impact of the proposed action on decommissioning of VYNPS. At the time of decommissioning, the licensee will be required to demonstrate that the activity levels on the site are sufficiently low to permit releasing the site for general use.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated August 30, 1995, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Brooks Memorial Library, 224 Main Street, Brattleboro, VT.

Dated at Rockville, Maryland, this 13th day of February 1996.

For the Nuclear Regulatory Commission.

Ledyard B. Marsh,

Director Project Directorate I-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Notice of Intention To Request Review of a Revised Information Collection; Forms RI 34-1 and RI 34-3

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management intends to submit to the Office of Management and Budget a request for clearance of a revised information collection: Forms RI 34-1 and RI 34-3. RI 34-1, Financial Resources Questionnaire, collects detailed financial information for use by OPM in determining whether to agree to a waiver, compromise, or adjustment of the collection of erroneous payments from the Civil Service Retirement and Disability Fund. RI 34-3, Notice of Debt due Because of Annuity Overpayment, informs the annuitant that a debt is due, describes the cause for the overpayment,
